Address:

11 Corlette St

Portland, NSW 2847

Content:

I object to the proposed waste treatment facility in Camellia - this is a built up area which will be affected by the additional trucks required to transport waste to and from the facility, odour from the facility and the trucks transporting the waste and noise impacts. The stench from this tip will most likely affect the businesses in the vicinity including a day care centre, the race course, university, bowling club and shopping centres (Aldis and Woolworths).

I particularly object the proposed breach of the sealed cap protecting us from the contaminated fibres hidden beneath the concrete covering the former James site. This is a major health and safety risk to the community and the government is in breach of its duty of care to the residents of NSW, in particular Western Sydney - Camellia, if this breach of the cap is approved. I think the Government will be opening itself up for an onslaught of legal battles in the future when the children attending the nearby day care center are diagnosed with mesothelioma!
