Attention: Caroline Owen

Dear Madam,

Section 75W Request to Modify Approved Concept Plan for Clemton Park Village, Campsie

Thank you for your letter dated 13 April 2012 regarding the abovementioned proposal. Transport for NSW has reviewed the modification request for Clemton Park Village (MP07_0106 MOD 2) and requires the Transport Condition 6.30 to include the following:

New bus stops and associated bus stop infrastructure shall be provided on Harp Street and Charlotte Street by the proponent, to support any regular future bus service introduced along Harp Street and Charlotte Street to service the site. The bus stops shall be provided where required by Transport for NSW and shall be constructed to relevant standards and at no cost to Canterbury Council. Prior to the installation of bus stops on Harp Street and Charlotte Street, the proponent shall liaise with Transport for NSW (Transport Services) as to its requirements for the number, location, and timing of bus stops, which will also be subject to approval by Canterbury Council's Local Traffic Committee.

Should you have any questions regarding this matter, please contact Angela Malloch on 8202 3562 or Angela.Malloch@transport.nsw.gov.au

Yours sincerely,

7/5/12

Mark Ozinga
