Hi again Mark,

I am sorry that you were not able to reply to my question below, furthermore I am deeply disturbed;

I sent many submissions under differing topics, with differing reasons for my OBJECTIONS via the 'stopthesharkiesdevelopment website' and many additional concerns separately on my own via email.

However the Dept of Planning has lumped these submissions under one name/number and seemingly given these duplicate, differing submissions the same weighting as those sent by someone SUPPORTING the proposal from interstate, who surely will have no daily inconvenience, no loss of quality of life, no loss of local environment, etc., at all.

Sharkies has used these figures to wrongly distort their FOR:AGAINST (56%:44%) analysis – this is FALSE PROPAGANDA!

They come back with a reduction in size, height & number of units, however this does absolutely NOTHING to address any of my ongoing concerns, nor the local:non-local 'quality of life' imbalance.

I feel very helpless in front of big business bucks & corporate greed. I would like to continue objecting to this proposed development.

Thanks and best regards, Matt

Thanks Mark.

One question: how can the submission of a person not even living in the same state as the development be equated with the submission of a local resident upon which the development will impact on a daily basis?

Best regards, Matt

Hi Mark,

Now that I have your attention, I must oppose this development on EVERY level as a local Cronulla resident.

If this goes ahead, I (and many of my like minded, law abiding citizens) will have to move to a quieter suburb!

Please ensure that this voice is heard, as I cannot find any reference to my previous effort on your web page.

Thanks, Matt
