No.	Nature	Comment/Issues Raised
1	In principle support	Impacts of proposed works on Tramway Creek and subsequent impacts on properties at Allenby Parade eg Culvert widening of the railway embankment and stabilisation of the waterway.
2	Objection	* Impacts of proposal on Turpentine Forest and Bushfire Protection zones. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands.
3	Objection	Concerned with impacts of the proposal on the natural foreshore and sewerage impacts
4	In principle support	* Use of Sturdee Ave during construction with regards to noise and dust and disruption of resident's access to the Prines Highway. * Impact of heavy vehicles leaving the site will result in Trafficgridlock. * Recommend that north-south access roads be constructed at the beginning of the project, not end as heavy vehicles can access the Princes Highway via Point Street. * Recommended that bridge over Sturdee Ave be used for access by emergency vehicles and pedestrians, which would be enforced by lockable boomgate.
5	Objection	* Impacts of proposal on the Turpentine Forest. * Density of housing and Traffic generation by the proposal.
6	Objection	Impacts of proposal on Turpentine Forest, Aboriginal cultural heritage and open space.
7	Objection	* Concerned that site is being overdeveloped and high density development at the southern end of Thomas Gibson Park will be intrusive. * Impacts on the Turpentine Forest by roads, APZs and subdivision. * 20m wide bridges will not cope with a 100m wide flood. * A 40m buffer is not being provided around creeks and wetlands as specified by DEC. * Stockland has not complied with conditions of consent for first subdivision.
8	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
9	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
10	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
11	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
12	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
13	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
14	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

822	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
823	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
824	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
825	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
826	Objection	* Proposals will increase TrafficCongestion. * Proposal will not provide essential infrastructure such as schools and hospital.
827	Objection	* Building height not good for location.
828	Objection	* Proposal will impact on scenic quality of the locality. * Proposal will impact population. * Density of housing and Trafficgeneration by the proposal. * Building height exceeds 11m limit of Illawarra REP. * Impact on weekend visitors vital to local economy.
829	Objection	* Impacts of proposal on Traffic thus increasing Traffic Congestion.
830	Objection	* Overdevelopment. Is the demand really there for that much 'upper-class' housing.
831	Objection	* Proposal will impact Trafficand increase TrafficCongestion. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Suggested that no subdivision take place until planned road upgrades. * Impacts of proposal on riparian buffers. * Proposal does not address the environmental issues adequately. * Proposal will include loss of open space at Thomas Gibson Park for a road.
832	Objection	* Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will impact on Trafficand population. * Proposal ignores the department of Environment and Conservation's requirements for 40 metre buffer zones. * Proposal will include loss of open space at Thomas Gibson Park for a road.
833	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
834	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
835	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
836	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
837	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
838	Objection	* Proposal will impact on Trafficand population. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
839	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road. * Should be more sensitive to Aboriginal Heritage in the area
840	Objection	* Proposal does not meet the urban design issues and will effect the popularity of Sea Cliff bridge. * Proposal will impact on Trafficand population. * Building height exceeds 11m limit of Illawarra REP. * Loss of playfield for the children and local clubs. * Proposal will include loss of open space at Thomas Gibson Park for a road.
841	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal does not meet the environmental and cultural values of land at Sandon Point.
842	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal does not meet the environmental and cultural values of land at Sandon Point effecting the aboriginal heritage. * Proposal will include loss of open space at Thomas Gibson Park for a road.
843	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on traffic. * Proposal will result in over development. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will include loss of open space at Thomas Gibson Park for a road.
844	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in Trafficincrease and Congestiond. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
845	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.

No.	Nature	Comment/Issues Raised
846	Objection	* Impacts of proposed works on Tramway Creek and subsequent impacts on properties at Allenby Parade eg Culvert widening of the railway embankment and stabilisation of the waterway. * Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
847	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will include loss of open space at Thomas Gibson Park for a road.
848	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will result in over development, increase in population and traffic. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest.
849	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on environment and natural species. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.
850	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will include loss of open space at Thomas Gibson Park for a road.
851	Objection	* Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increase in population and traffic. * Impacts of proposal on riparian buffers. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Use of Sturdee Ave during construction with regards to noise and dust and disruption of resident's access to the Prines Highway. * Proposal will include loss of open space at Thomas Gibson Park for a road.
852	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Building height exceeds 11m limit of Illawarra REP.

No.	Nature	Comment/Issues Raised
853	Objection	* Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increase in population and traffic. * Impacts of proposal on riparian buffers. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Use of Sturdee Ave during construction with regards to noise and dust and disruption of resident's access to the Princess Highway. * Proposal will include loss of open space at Thomas Gibson Park for a road.
854	Objection	* Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increase in population and traffic. * Suggested that bridge joining Sturdee Ave and Bulli must be used as a pedestrian bridge only. * Proposal will impact on wild life and environment. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will result in over population and increased traffic.
855	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
856	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
857	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Building height exceeds 11m limit of Illawarra REP.
858	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
859	Objection	* Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Impacts of proposal on environment and cultural heritage. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
860	Objection	* Impacts of proposal on environment and cultural heritage. * Proposal will result in over population. * Proposal will include loss of open space at Thomas Gibson Park for a road.
861	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * suggested for the creation of a regional park recognizing the cultural heritage. * Proposal will include loss of open space at Thomas Gibson Park for a road.
862	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increased traffic and over population. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
863	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increased traffic and over population. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
864	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on floodplain wetlands. * Proposal will result in over population.
865	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on tourism and employment. * Proposal will result in increased traffic and over population. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.
866	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection. * Proposal will result in increased traffic and over population. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will effect tourism in this area. * Proposal will include loss of open space at Thomas Gibson Park for a road.
867	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection. * Impacts of proposal on population and traffic. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
868	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest.
869	Objection	* Buildings exceeding height will impact on scenic quality of the area. * Proposal will impact on aboriginal cultural heritage and wild life.
870	Objection	* Proposal does not consider environmental protection and cultural heritage. * Impacts of proposal on population and traffic. * Proposal will include loss of open space at Thomas Gibson Park for a road.
871	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in increased population and traffic. * Impacts of proposal on riparian buffers. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
872	Objection	* Proposal will impact on traffic and population. * Proposal will include loss of open space and play field at Thomas Gibson Park for a road.
873	Objection	* Proposal will impact on traffic and population. * Proposal will include loss of open space and play field at Thomas Gibson Park for a road.
874	Objection	* Density of housing and traffic generation by the proposal.
875	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Also concerned with flooding and recommends 40m conservation buffers around creek and wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * suggested for the creation of a regional park recognizing the cultural heritage. * Proposal will include loss of open space at Thomas Gibson Park for a road.
876	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Suggested for planned road upgrades. * Proposal will include loss of open space at Thomas Gibson Park for a road.
877	Objection	* Proposal does not consider environmental protection and cultural heritage. * Proposal will impact on tourism. * Proposal will increase traffic and population resulting in the damage of natural and scenic beauty.
878	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will not provide essential infrastructure such as schools and hospital and will increase population and traffic. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Inappropriate building size will effect coastal profile. * Proposal will include loss of open space and play fields at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
879	Support	* Proposal shows forward thinking to house people close to the amenities the region provides. * There is already an abundance of parks to accommodate the influx of people.
880	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * Proposal will impact on traffic conditions as existing roads are not enough to handle enormous traffic streets. * Proposal will include loss of open space at Thomas Gibson Park for a road.
881	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will not provide essential infrastructure such as schools and hospital. * Impacts of proposal on population, traffic and parking. * Proposal will effect the employment situation resulting in unemployment. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
882	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations. * Suggest to increase play fields and recreational parks in the area. * Proposal will not provide essential infrastructure such as schools, hospital and other facilities. * Impacts of proposal on population and traffic. * Suggest developers should contribute to improve quality of life by building sport complex, providing adequate equipments for surf clubs and improving swimming pool of Thirroul. * Building height exceeds 11m limit of Illawarra REP. * Proposal will include loss of open space at Thomas Gibson Park for a road.
883	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest, Wildlife and Traffic. * Proposal fails to detail social benefits (like schools and hospitals) for the people of this area. * Impacts of proposal on riparian buffers as they are too narrow. * Proposal will not provide suitable design for landscape development. * Proposal does not consider COI recommendations for protection of Turpentine Forest and cultural heritage. * Building height exceeds 11m limit of Illawarra REP. * Suggested that proposal should set new standards in sustainable residential design. * Proposal will include loss of open space at Thomas Gibson Park for a road.
884	Objection	* Proposal does not consider NSW Coastal Policy and the community has not given the right to think about urban design. * Proposal will result in excessive density of development, building without eaves and asking for 70% of covered area. * Proposal provided inadequate road widths cannot accommodate the increased traffic due to this proposal. * Proposal provided misleading intent as the type, bulk, scale and size of proposed buildings are not similar to the existing urban fabric. * Proposal will impact on Turpentine Forest, cultural heritage, wildlife and water infrastructure will impact on floodplain wetlands. * Proposal ignored local specialised ecology. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.

No.	Nature	Comment/Issues Raised
885	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * 20m wide bridges proposed will not cope with flooding.
886	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
887	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
888	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

895	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.
896	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP.
897	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
898	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will not provide essential infrastructure for roads and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Proposal will include loss of open space at Thomas Gibson Park for a road.
899	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest.
900	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will impact on archaeological site of national significance, sacred indigenous burial site and European historical significance. * Impacts of proposal on riparian buffers. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
901	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
902	Objection	* The proposal does not recognise the values and views of the community. * Gross overdevelopment in size and height * The Aboriginal issues need to be fully investigated * Some of the information provided is false and unclear eg the photomontages. * Creek corridors against the DGRs. * Major flooding issues * Traffic increases due to Sea Cliff Bridge * The link road will have serious impacts on traffic and intersections. * Lack of sports grounds * Is this a suitable place for the aged care facility considering another is being built at the Brickworks site. * Protection of the Turpentine Forest not adequate.
903	Objection	Public meeting resolutions: * To implement the recommendations of the Commission of Inquiry. * No loss of public land for private development * Sufficient public space be provided including sports fields and recreational areas. - Land be declared a Place of Aboriginal Significance.

No.	Nature	Comment/Issues Raised
904	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will result in over-development. * Impacts of proposal on riparian buffers. * Proposal will result in loss of opportunity to create Regional Coastal Park, open spaces and walking tracks. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
905	Objection	* Hill report shows lack of respect and understanding of catchment hydrology and floodplain management, both in terms of ecology and long term social and economic planning. * Hill review was limited to submissions received AFTER the Col. He claims he had no flood information yet shows the Map from the HCFRMS. * Seven creeks and tributaries covering some 8.9ha of catchment, as well as several landform changes, have been omitted from the flood study. * Sensitivity analysis of 20% is meaningless considering discharge rates are considered to be 20-30% lower than previous studies. * 344ha of catchment is converging onto 6ha of land.
	Objection	* Issues raised by DIPNRs submission to Col are still unresolved, in particular, adopting peak design flows from the Hewitts Creek Flood Study. These issues include: 1. Manning's hydraulic roughness coefficient (n) is too low for the expected conditions; 2. The 2hr storm used to determine critical storm burst may be too long and needs to be tested. It also fails to superimpose storm burst runoff on top of initial flows; 3. The lag coefficient is too high for catchment; 4. The flood study has adopted peak 1:100 discharge rates for Woodlands and Slacky that are less than the 1:20 figures calculated for each catchment, various checking methods show the rates in the flood study to be up to 40% lower than calculated. 5. There are discrepancies in the volume that can apparently be accepted by various culverts and what is diverted under different design events; 6. ocean level increases due to global warming may have been significantly underestimated and uses a 1%AEP ocean event which <u>my be too conservative. The outcome could be that the peak design flows have been underestimated.</u>
	Objection	* Concerned with proposed channel enlargements from the rail line to Tramway Creek and its impact on SCESFC.
906	Objection	* Objects to urbanisation of the coast. * Believes the process is corrupt and that the Hill report is not impartial. * Valuers have stated that \$14-22M would buy the land back and believes that government should do so.
907	Objection	* Lack of infrastructure, especially roads, to deal with even the existing community. * Lack of evacuation routes in event of an emergency. * Tourism is being promoted with natural beauty as the selling point, yet planning massive development on one of the last remaining wetlands in the Illawarra.
908	Objection	* Violation of public open space. * Increase in traffic on already busy roads.
909	Objection	* Do not want houses anywhere on Sandon Point. * The development is 'sardineville' on a floodplain with major archaeological deposits and significant Aboriginal heritage. * In violation of the Commission of Inquiry. * Have been excluded from consultation. * Dont want any form of development on the Turpentine Forest. * At the Col, Paul Hedge, Stockland, promised to give the onsite sales office to the Aboriginal community as a culture centre and employ Aboriginal gardeners to maintain creek edges if allowed to build there. Stockland are going back on these promises. * The Aboriginal people have never been compensated for mining their resources.

No.	Nature	Comment/Issues Raised
910	Objection	* The Col recommended a comprehensive Aboriginal Heritage Study and advisory funding to the Aboriginal community to help achieve an independent outcome - these have not happened. * Social and spiritual traditions are being ignored and only inanimate physical objects looked at in isolation. * The proposal doesn't consider Stuart Huys' study. * The proposal should be withdrawn until it conforms with findings and recommendations from the Col. * The visual amenity from the coast to the escarpment is a significant attribute for the Aboriginal cultural and spiritual heritage. * No anthropological studies have been done. * Oppose road access through Thomas Gibson Park and a male anthropologist should be commissioned to speak to local Aboriginal men regarding this site. * A more respectful attitude towards bloodline traditional Aboriginal people and their culture should be adopted. * The Aboriginal Place declaration draft of June 2001 must be completed for the whole of Sandon Point.
911	Objection	* The report ' Sandon Point VCA and Keeping Place: consultation with the Aboriginal community and recommendations' by S. McIntyre-Tamwoy (June 2006) is culturally inappropriate and riddled with misinformation, falsehoods and known errors. These were corrected in written communications with Ms McIntyre-Tamwoy but included anyway. This report should not be used to base decisions on.
912	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
913	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
914	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
915	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
916	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
917	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
918	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase traffic congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
919	Objection	* The DEC DG requested for re-assessment of the endangered ecological communities. * The DEC DG requested that riparian areas and endangered ecological communities have a 40m buffer containing no infrastructure or APZs. * The DEC DG requested that stormwater treatment areas are outside of the buffer. * The present proposal does not meet these requirements.
920	Objection	* There are some things money cant buy.
921	Objection	* Reports as far back as 1992 highlight the seriousness of the flooding issues associated with the site.

No.	Nature	Comment/Issues Raised
922	Objection	* Mapping of all remnant and natural areas is warranted given that class 1 and 2 bird habitat zones were mapped in the Sandon Point LES 1992. 2006 Aerial pictures are now being processed at WCC. * The Cooksons have allowed the land to degrade and slashed regenerating areas. The Turpentine Forest is larger than the 1ha noted in the Bushfire Report. * The proposed 2(b) medium density area overlaps the wetland between Woodlands and Hewitts Creek which has failed to be acknowledged as such. * New report by CSIRO recommends a 70 yr planning period for development of Major Infrastructure and 100 yr planning period for long Term Biodiversity and Bridge Design Life & Flood Heights.
923	Support	* There is a need for a retirement development in the northern suburbs. * Want to keep living in the area as long as possible. * Site is ideal as it has access to the bike track, rail and bus services and Bulli shopping precinct and village. * Confident that adequate provisions for traffic needs and preservation of the Turpentine Forest and flood plain will be made.
924	Objection	* Concerned that the width of riparian corridors are too small considering ecological and Aboriginal heritage issues. * Corridors should not contain hard infrastructure. * Any destruction of the Turpentine Forest should not be countenanced. * The Hannah mound should be protected and include a 50m protection zone around its perimeter to ensure protection of sub-surface artefact deposits.
925	Objection	* Proposal is contrary to the recommendations of the Col * Sensitive and sacred Aboriginal land, natural heritage areas, Turpentine Forest and wetlands are disregarded by the proposal. * An Aboriginal Cultural Heritage Study has not been considered in the proposal as recommended by the Col. * Riparian corridors have been narrowed. * Requests an independent flood study. * Does not provide essential infrastructure such as schools, hospitals and public transport facilities.
926	In principle support	* Proposal too dense for the area. * Development should address stormwater problems and alleviate existing flood issues by widening the creek corridors and flow paths under the railway line. * Need cycleway and pedestrian walks linking the site to Larence Hargrave Drive and Thirroul. * Lot sizes should be larger to reduce density and provide a more pleasant suburb, aesthetically and socially.
927	Objection	* Some detached housing lots are too small. Should be minimum of 500m2. This would be consistent with the last development in the area - Seabreeze Place and minimise overdevelopment. * Four story apartment block too high. Maximum height should be 3 stories as recommended in the Col and as is consistent with the Thirroul area.
928	Objection	* Environmentally sensitive site * Overcrowding * No indigenous links
929	Objection	* Destruction of wetland. * Destruction of flora and fauna habitat. * Destruction of Aboriginal Heritage * Roads are too busy as it is.
930	Objection	* Desecration of a special place environmentally and in terms of Aboriginal Heritage
931	Objection	* Duty of the Crown - Once the purposes originally granted for the land are no longer current, the land should be returned to its original condition and returned to the Crown. * Failing this, any residential development should provide sufficient land and housing in order for the Koori elders. * Need for study of the land needs of indigenous people in the Nth Illawarra before a decision is made. * The Draft Declaration of Rights of Indigenous Peoples should be considered. * Denial of rights to practice and revitalise as noted in the Draft Declaration, without a prior study, may constitute an act of cultural genocide/ethnocide. * The present indigenous cultural heritage studies are not complete in terms of both tangible and non-tangible aspects of indigenous cultural heritage.
932	Objection	* Fish migration * Flooding between Woodlands and Hewitts. * Need extra playing fields.

No.	Nature	Comment/Issues Raised
933	Objection	* Removal of a portion of the Turpentine Forest to accommodate the APZ. * Significant Aboriginal Heritage values across the site. * Stormwater issues. * Flooding * Biodiversity concerns * The need to protect creeks and Turpentine Forests * Protection of suggested archaeological sites.
934	In principle support	* Need for several pedestrian overpasses to 'encourage easy pedestrian access' as stated in the proposal. * A bus route through the site should be guaranteed prior to any development and funded for the first 15yrs to ensure continuity of this service despite initial losses. * The 4 storey building is exceedingly ugly. * Contaminated site issues have not been sufficiently assessed or addressed. * Geotechnical stability of all areas of the site need to be assessed. * The many extant refractories dating from all periods of the Refractory's development should be used as part of the paving, retaining and feature walls etc throughout the development.
935	Objection	* Destruction Turpentine Forest and other vegetation. * Creek treatments are grossly undersized. * Density too high. * Artists impression and insult if current Stockland proposal is anything to go by. * Local streets unable to cope with existing loads. * Building on a marsh and a flood plain * Contamination issues. * Indigenous heritage.
936	Objection	* Believe there should be no further development of the site. * The Col does not provide the level of protection warranted but is a reasonable compromise. * The present proposal is not suitable for the site given the natural and cultural constraints identified.
937	Objection	* The Village people propose a retirement village on the Bulli Brickworks site. Is there a need for two? * The proposed regional park should be planned and set in place before any consideration is given to allowing development. * Flood prone site unsuitable for development. * Aboriginal heritage studies need to be completed. * The concept plan does not satisfy the community and does not respect their concerns. * Borders of the Turpentine Forest does not allow further regeneration as as occurred over the last 50 years. * The APZ intrudes 10m into the Forest.
938	Objection	* There should be no development east of the Turpentine Forest and north of Hewitts Creek. * A comprehensive Aboriginal Cultural Heritage Study needs to be undertaken. * Full assessment and protection of the endangered ecological communities. * Sufficient riparian corridor widths. * Minimum 40m conservation buffer zones to creeks, wetlands and forests not to include infrastructure such as water treatment, roads or APZs.
939	Objection	* Several areas of listed endangered communities which are yet to be fully mapped. There is also potential for other listed endangered ecological communities. * There are a number of Aboriginal sites. * The first 6 stages of development by Stockland have been plagued by poor practices, damage to Aboriginal artifacts and the endangered ecological community. * The NPA supports the recommendations of the Commission of Inquiry.
940	Objection	* Significant impact on roads and traffic. * Increase in use of finite oil as most commute to Sydney. * Lack of playing fields. * Density too high for infrastructure * Loss of green space and threatening flora and fauna * Aboriginal and white heritage ignored. * Flood plains built on

No.	Nature	Comment/Issues Raised
941	Objection	* The development would impact wetlands through alteration of hydrology - a Key Threatening Process under TSC Act. The various other associated activities would destroy the wetlands within a short time. * The development has the potential to place both property and lives at risk through flooding * The Turpentine Forest has great significance as remnant vegetation, habitat and a cultural asset * The rights of indigenous Australians has not been recognised.
942	Objection	* Wetlands support vegetation listed under TSC Act. * Wetland provides habitat for migratory birds protected under JAMBA and CAMBA. * As a signator of the Ramsar convention, Australia is obliged to apply the principles of wise use to all wetlands. The proposal is not 'wise use'. * The wetlands provide ecological services in treating water discharging to the coast.
943	Objection	* Photomontage is misleading * Building on a flood plain * Riparian widths do not comply with DGRs * Aboriginal Cultural heritage has not been adequately considered. * Object to the use of Thomas Gibson Park for access to the development. * The APZ encroach on the Turpentine Forest.
944	Objection	* Proposal deviates significantly from accepted best practice guidelines, scientific knowledge and Government policies, advice and recommendations. * Many statements are unsubstantiated. * Significant irreversible harm will occur to the cultural and environmental attribute of the site as well as the downstream 7a and 6a zone and the beach. * Lack of sensitivity and understanding of Aboriginal issues. * Water quality treatment facilities need to be independently reviewed, especially considering their location within riparian zones. * Riparian corridors are much more reduced than recommended by several parties none are they wide enough to maintain the visual connection to the escarpment. * Extreme overdevelopment without providing adequate community facilities. * Should not be allowed to develop within the Turpentine Forest buffer zone. * Bridges not wide enough to be protected against floods. * There should be no loss of public space. * There are significant ecological communities on the site which should be protected to such an extent as to provide for the sustainable
945	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase Traffic Congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
946	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase Traffic Congestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
947	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
948	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
949	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
950	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
951	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
952	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
953	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
954	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
955	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

1723	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1724	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1725	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1726	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
1727	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1728	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1729	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1730	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1731	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
1732	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1733	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1734	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1735	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1736	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
1737	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1738	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1739	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1740	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1741	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
1742	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1743	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1744	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1745	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.
1746	Objection	* Proposal does not consider NSW Coastal Policy or the COI recommendations for environmental protection of the coastal floodplain. * Proposal will impact on Turpentine Forest and water infrastructure will impact on floodplain wetlands. * Proposal will desecrate a women's site in the Turpentine Forest and Men's site in Thomas Gibson Park. * Impacts of proposal on riparian buffers. * Proposal will not provide essential infrastructure such as schools and hospital and will increase TrafficCongestion. * ARV proposal does not consider COI Aboriginal cultural heritage study or COI recommendations for protection of Turpentine Forest. * Building height exceeds 11m limit of Illawarra REP. * 20m wide bridges proposed will not cope with flooding. * Proposal will include loss of open space at Thomas Gibson Park for a road.

No.	Nature	Comment/Issues Raised
1747	Objection	* Aboriginal heritage must be protected
1748	Support	* The Stockland submission should identify the full extent of land identified as developable. * Mr Hannah seeks confirmation that the road running along the common boundary can provide future access to Hannah lands. * Hannah seeks clarification as to the powers of the Minister to provide access to Council owned land for site access. * Information is sort as to how stored stormwater is dispersed onto Mr Hannahs land and if the developer can ensure that additional stormwater volume and/or flow rates is not redirected onto his property
1749	Objection	* Destruction of Aboriginal Heritage. * Turpentine Forest must be protected * No road through Thomas Gibson Park * Sufficient riparian corridors to protect Aboriginal artefacts * Creek design should mimic natural form. * Flood risk.
1750	Objection	* Huy Report was not considered in the proposals. * No women were consulted in the Mary Dallas report. * The Turpentine Forest down to the ocean should be protected.
1751	Objection	* Destroying ethnic cultural heritage is an act of cultural genocide in breach of the UN Draft Declaration of the Rights of Indigenous Peoples Part III * The area bound by the railway, Wilkies track, McCauleys beach and Tramway Creek should be conserved. * Interpretative signage should be erected explaining the significance of the Womens area.
1752	Objection	* Conflict of interest in choice of some consultants used. * Requests independent survey of the site. * Significant flooding risks. * Inadequate water quality treatment. * Traffic congestion.
1753	Objection	* Col should not be ignored. * Government should buy back the land * Aboriginal artefacts destroyed. * Community not being listen to.
1754	Objection	* The past land owner of the whole site should pay for the rehabilitation of Woodlands and Hewitts Creek. * Core riparian corridors have been cut back with no ligitimate justification * Wider corridors are more self sustaining and therefore reduces long term maintenance requirements (and therefore costs) * There is a need to map the remnant vegetation as all mapping is now very out dated. * Flood flows underestimated. * Aboriginal Heritage not properly assessed
1755	Objection	* Thomas Gibson Park is overused and does not have capacity for the increase in population. * There is a desperate need for active open space in the area. * Disagrees with the use extention of Wexham Rd
1756	Objection	* Sandon Point has provided an excellent opportunity for developing understanding between indigenous and non-indegenous Australians * It's a very important area for recreation and tourism. * The community feels very strongly about this area. Both the local and wider community in terms of the visitors. * Wetlands will vanish. * Flooding issues are to great to ignore.
1757	Objection	* Loss of part of Thomas Gibson Park * Stress on roads * Increased risk of flooding * Loss of environmental and cultural rich place.
1758	Support	* The site has been zoned light industrial even though it is a heavy industrial buisness. * The best way forward is to relocate. However, there needs to be sufficient funds and / or assistance to ensure this. * An interim period of up to three years will be needed to facilitate the relocation once approval for redevelopment has been given. * Loss of local jobs is a concern
1759	Support	* Want to make sure a future for its employees is secure, either on the current site or morel likely relocated to an industrial site somewhere in the Illarwarra.
