I strongly object to the proposal.

The grounds which I object are;

Environmental
 Socio-Economic
 Cultural
 Visual
 Heritage
 Health/air quality/dust

I am a landowner at nearby rural property used for cattle grazing.

We have farmed cattle on our property for approximately 95 years.

We rely upon underground water for our stock. The proposed coal mine may affect this water.

We rely upon tank water for our drinking water. The dust from the proposed mine would fall on our roof & contaminate our drinking water with pollutants & heavy metals such as lead.

The proposed mine is completely incompatible with the existing agricultural & equine industries in the vicinity.

I believe the proposed coal mine will destroy the area forever. The health and air quality effects upon local people will be enormous. It should never be permitted next door to Coolmore Stud.
