Re - modification project approval (PA 06 0202
Mod 2)

We feel we are greatly impacted by
the dust at Drayton & Mt Arthur mine.
We live about 2-3 kls away. it is not
just general dust it is Black Coal. in our
home. It is not good Health wise. They
keep saying they are with in the range.
If that is so, it needs to be lowered.
So close to our Home. I tried to take Photos
but it does not show up. Some one needs
to see for them selves how bad it is.
and noise is not much better. We would
appreciate if you seriously consider
this letter. Thanks. Michael & Vera Doherty.
