610.10676 SHF Changes to Proposal (N&V).docx

Crawford Architects
Suite 100, Jones Bay Wharf
Pirrama Road
PYRMONT NSW 2009

Attention: John Crawford

Dear John

**Sydney Heritage Fleet
Revisions to Proposal
Changes to Noise Impact Assessment**

SLR Consulting Australia Pty Ltd (SLR Consulting) was commissioned by Crawford Architects on behalf of Sydney Maritime Museum Ltd to provide environmental assessment reports to support a Development Application for the Sydney Heritage Fleet, Bank Street, Pyrmont.

The potential noise and vibration impacts associated with the project, during construction and operation of the facility, were assessed in SLR Consulting report *610.10676-R5R0 – Noise Impact Assessment, Sydney Heritage Fleet, Pyrmont, NSW 2009*, dated January 2012.

SLR Consulting understands that the proposal has now been amended, following discussions with the Department of Planning. The alterations include:

- The removal of the floating dock restoration facility from the wharf area of the Bank Street site.
- A reduction in the length of the water lease component of the application by 23 m.

With consideration of the above, the potential noise and vibration impacts associated with the amended project are not anticipated to be any greater than those presented in SLR Consulting report 610.10676-R5R0. Given the proposal now no longer incorporates the floating dock restoration facility, the impacts in terms of both construction and operational noise from the facility are in fact likely to be reduced.

We trust this is sufficient for your needs, however should you have any further questions please don't hesitate to get in contact.

Yours sincerely

SLR Consulting Australia Pty Ltd
