**Subject:** Coalpac Consolidation Project

Dear Mr Dumpleton,

My name is Eva Rizana and I spent the first 26 years of my life as a resident of Cullen Bullen.

I am currently living in Katoomba NSW.

My family still has a house and a small block of land in Cullen Bullen.

I know that Coalpac has responded to some of the submissions made earlier and have made some adjustments as a result.

However, in my opinion I really don't feel that the changes made will do anything to lessen the financial, health and environmental impact felt by the people of Cullen Bullen.

The subject of local jobs has made headlines recently but from my understanding only 3-4 people in Cullen Bullen are actually employed by Coalpac....The Coalpac Consolidation Project has to be about more than just local jobs.

It seems to me that big companies stand to win at the expense of the health and well-being of the residents of Cullen Bullen.

In Addition to this there are no guarantees offered by Coalpac that the pagodas won't be harmed by the mining operations in spite of the concessions made.They are irreplaceable!!!

I strongly add my voice to those who recommend that the Coalpac Consolidation Project be rejected entirely and also declare that I have not made any financial contributions to political parties.

Thank you for your consideration in this matter.

Yours faithfully

Eva Rizana
