**Re: Support For The Coalpac Consolidation Project**

Dear Mr Dumpleton,

I am writing to support the coal mining industry in the Lithgow area and in particular the Coalpac Project near Cullen Bullen.

The Coalpac mines will supply coal to the local power stations which will ensure jobs and the local economy into the future. Closure of the coal mines means local jobs and livelihood will be lost forever.

My work is related to the coal industry in the Lithgow area and I need the work to support my family and save for my retirement. If the mines such as the Coalpac project keep producing coal for the local power stations at Wallerawang and Mt Piper the future of the Lithgow region will be assured. Close the local mines and the power stations may close as it would be too costly to bring coal in from outside the district. Already one unit at Wallerawang power station has been taken offline putting that power station's future in jeopardy.

The decisions about these mines which effect our local economy are being made by faceless bureaucrats and powerbrokers who don't know or care about the Lithgow economy.

Two local mines have been shut down within the past two years resulting in the loss of many jobs. Please don't close the Coalpac mines and help keep Lithgow prosperous.

Yours sincerely,

John Stevens  
8 Forest Ridge Drive,  
Wallerawang.  
NSW 2845.
