Re: Support for the Coalpac Consolidation Project

Dear Carl,

Please keep local mines producing
coal for our power stations & secure
lithium future

Our mines have supported the town
& state for 140 years - why destroy?

Yours sincerely

Jeanette Brauer

Re: Support for the Coalpac Consolidation Project

Dear Carl,

Dont close our mines, if the mines close alot of people will lose jobs in the lithgow area. Lithgow is a mining town and our economy will suffer with any closure of a mine. A lot of us rely on the mines and the work it provides support for all our families. All us miners around here are like one big family. To keep lithgow going we all need the mines and powerstations to stay open and support our town. The unemployment rate is low enough in this area and australia so why make it worse and shut mines down and make the rate higher by putting more people out of work?

RE: SUPPORT FOR THE COALPAC CONSOLIDATION PROJECT

Dear Carl,

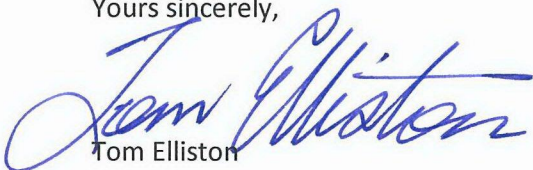

I'd like to register my support for the Coalpac Consolidation Project.

The coal mines and power stations are the only significant industries in this district and closure of mines that supply the power stations will have disastrous effect on the regional economy and cause further escalation of electricity prices.

I have made a good living from the coal mining industry in Lithgow for the past 43 years as have many others in the town.

I do not want to see employment disappear for no good reason.

Yours sincerely,

Tom Elliston
Mine Surveyor
