Re: Support for the Coalpac Consolidation Project

Dear Carl,

my concern is the coal mines closing in the Lithgow area. They are a necessary part of our towns survival.

The mines have supported the area for 140 years. Smaller towns around Lithgow are suffering enough. The closing of these mines will be disaster for them.

It is necessary for coalpac mines to keep producing coal for our power stations for our areas future.

No mines, no job, no power stations no Lithgow,

Don't sabotage coalpac mines please we need Lithgow to be prosperous.

Yours sincerely

Re: Support for the Coalpac Consolidation Project

Dear Carl,

I am concerned in relation to the proposal to close mines in the Lithgow area. Over the years the town has suffered closures or deduction in production and this has had a very adverse effect on the community in general.

Lithgow has always been known as a much needed coal area and has been the livelihood for many families. Lithgow's economy will be destroyed by mine closures and it would appear that Government powerbrokers want to close mines without any regard in relation to the loss of jobs.

Lithgow's coal mining and power stations contribute hundreds of millions of dollars to the state's economy. We need to keep Lithgow alive and not destroy viable coal mines that support our power stations and provide hundreds of jobs in the local area.

The town has seen enough of the bureaucrats' attitude in the town with the closure of business houses that were supporting the economy. Don't let a closure of mines in the area put a further burden on the community.

Yours sincerely
