- Exhibition of modification for
110-114 Herring Road, Macquarie Park
(North Ryde)

- Stamford Property Services
MP 10-0112 MOD 2 & MP 10-0113 MOD 1

- I object to this massive development.
- I have made no political donation & in the previous two years.

My submission:

Dear Heather Warton

Thank you for letting me know that this massive development has been approved without my knowledge.

This is my story:

In 1974, my late father ~~██████████~~ (a survivor of Japanese Concentration camp during World War II), helped me to purchase a unit on 115-118 Herring Road North Ryde. I was still a student at Macquarie Uni.

①

Currently, this home unit is rented out and one day one of my three sons will use it as they start their married lives.

The developers ~~ex~~ have already started selling the units off the plan (weekend 12 - 13th October) and you want me to tell these big company, I don't want this development. Their advertising talks about, units facing North. That is the direction towards the two ~~a~~ bedrooms of ~~the~~ my unit.

The Privacy of the bedrooms will be affected. Shadows will engulf my unit (only 3 stories high).

The noise of air-conditioning from these high-rise development will be deafening.

The traffic ~~whi~~ on Herring Road which is already heavily congested will be a nightmare.

I understand that this letter will throw in the bin. But, if you have a heart, at least make sure that these high-rise buildings are at least 25 metres away from the boundary face and the ones facing directly towards 116-118 Herring Road units are not more than ~~6~~ 5 stories high, with plenty of trees to hide the wall of horror that my sons will be facing.

went to Ryde Council this morning (15th October).
It took the officers 30 minutes to work out
what development I was talking about.

They also informed me that if I wanted to
see the plans, I had to go across the road
(Lane Cove Road). I also had to pay for
each individual page of plans regarding this
development. I was horrified, ~~de~~ distressed and
rather confused.

But please consider this objection, even though
it is not professional

Regards
