

A 3D perspective view of a city model, showing various building heights and densities. A cloud-like boundary highlights a specific urban area in the center-right of the model, which is the focus of the subsequent diagrams.

A 3D wireframe model of a city skyline. The buildings are represented by rectangular blocks of varying heights and widths, arranged on a grid base. A central, taller building is highlighted with a thought bubble above it, suggesting a focus or a specific concept related to that building. The entire model is rendered in a simple, schematic style using black lines on a white background.

A 3D wireframe model of a city grid. The grid is composed of numerous rectangular blocks of varying heights. A central cluster of buildings is highlighted with a thick, dark outline and a cloud-like, scalloped border, suggesting a specific area of interest or a simulated zone. The perspective is from an elevated angle, looking down at the city layout.

General Notes			
1. Do not scale drawings. Dimensions govern. 2. All dimensions are in meters unless noted otherwise. 3. All dimensions shall be verified on site before proceeding work. 4. Foster + Partners shall be notified in writing of any discrepancies. 5. Australian Eastern Time Zone: UTC/GMT +10 hours
