

Submission 53 - Pam Roberts

Subject: RE: Pindimar Abalone Factory/Farm. Your Ref. MP10_0006

Dear Minister for Planning

We object to this proposed Abalone Farm, my family and I in our opinion believe it would be detrimental to this wonderful Ports future and eco system that we now enjoy. It will impact on Recreational Fishing, Dolphins Habitat, Whale Watching by polluting the Ports Waters and destroying sea grass meadows, fish breeding and nursery areas as well as adversely impact on the other beautiful marine life, creatures and plants. This not progress, it's not needed, it is a backward step in preserving our environment for future generations.

I implore you not to allow this dreadful Project to go ahead, please don't allow our precious marine habitat and waterways be degraded. You will be held responsible.

Pam Roberts and Family.
North Pindimar
