RE: Abalone Land Factory Farm at Port Stephens.

To Whom It May Concern,

We would like to advise you that we most strongly object to this proposal at Port Stephens. How should anyone be allowed to violate this pristine waterway for profit? These applications should be made more transparent to the community in which they are proposed, so that the people who care & love their environment at least know what is going on. It seems to us that this non advising of proposals like this one is most unfair to constituents & we feel blindsided by this unrealistic proposal. Does anyone not care for our future?

Regards,

Mr & Mrs Beaumont.
