

30th September 2013

Mr Tom Magnier Coolmore Australia PO Box 8 Jerry's Plains NSW 2330

Dear Tom,

I am writing to you in relation to a proposal for an open cast coal mile to be situated in very close proximity to Coolmore Australia. My foremost concern is with respect to the fact that I have a substantial investment in bloodstock which reside permanently at your Jerry's Plains farm and, needless to say, their welfare and development is absolutely paramount.

I am delighted to have had my horses on Coolmore for many years and am proud of the success that we have enjoyed together, breeding such well performed thoroughbreds as Gathering, Trusting, Invest, One Last Dance and, more recently, A Time For Julia.

I am obviously concerned as to the potential risks posed to my horses (and those of Coolmore) by mining operations in close proximity to Coolmore. I would strongly encourage you to ensure that Coolmore's very well regarded breeding establishment remains this way and that you take every endeavour practically possible to protect the interests of this farm.

Kind regards,

John Camilleri

Mr Tom Magnier Coolmore Australia PO Box 8 Jerry's Plains NSW 2330

2 October 2013

Kindest regards,

Dear Tom,

We understand that there is a proposal for an open cast coal mine in very close proximity to Coolmore Australia. The prospect of the environment in which our family's bloodstock is nurtured, developed and maintained being compromised is a most worrying one for us, as I'm sure it is for you.

We are delighted to have had the Ingham Bloodstock Group breeding stock and their progeny on Coolmore for the past number of years. We currently have 14 broodmares on your farm, along with younger progeny of a number of these mares. It's an exceptional facility with environmental conditions conducive to the growth of bloodstock of the highest quality, as well as top class horsemanship and we always greatly enjoy our visits to the farm.

We are obviously concerned as to the potential risks posed to the Ingham Bloodstock Group horses by mining operations in close proximity to Coolmore, should they materialise. It's a most worrying prospect and we wish you the very best in your efforts to protect your farm.

Al Adiyaat

His Highness Sheikh Mohammed Bin Khalifa Al Maktoum

Mr Tom Magnier Coolmore Australia PO Box 8 Jerry's Plains NSW 2330

30th September 2013

Dear Tom,

As I have told you and Michael many times in the past, His Highness Sheikh Mohammed Bin Khalifa Al Maktoum is very proud of his association with Coolmore Australia. It's been a hugely fruitful one for many years and the likes of top class horses that we have bred with you including Musir, Raihana, Amanee and Mahbooba amongst others bear testament to that. The prospect of an open cast mine in very close proximity to Coolmore Australia is of utmost concern to us. As His Highness remarked when he visited the farm in April, it is a wonderful environment to nurture and develop quality bloodstock and it would be a source of significant worry to us were the farm to be compromised by the presence of coalmines nearby.

Coolmore is synonymous with the best – right around the world. We keep our mares which numbers upwards of 20 now, with Coolmore because we want them to have the best of everything. I certainly feel that our achievements of our horses over the years justify our faith in and support of Coolmore. I wish you the very best in your efforts to protect your beautiful farm – its an equine utopia and deserves to be protected as such.

Kindest regards,

Tim Stakemire Manager of Al Adiyaat Racing
