

Report

Report Type: Supplementary Report to DA Report
Development: 300 Johnston St Annandale
Date of Report: 10th November 2014

This report assesses the proposal to combine Units 2 and 3 from the approved application into a single adaptable dwelling. It is based on a review of drawings A100-A102 Rev C prepared by Tony Owen & Partners.

Based on this review, I confirm that the unit can comply with AS 4299 as adaptable and that the basis of the original DA report is unchanged.
