**Content:**

I wish to lodge an objection to the modification to Elf Mushroom Farm and Substrate Plant Project. The current situation with the Elf mushroom plant is intolerable with the level of offensive odour a constant concert to myself and my family. I find that the smell coming from the plant is at a very high level at least 4 times a week and for such a plant to be allowed in such close proximity to homes and the township of Mulgrave and Windsor is shocking. Immediate increase in controls is required and any reduction in requirements will subject us to even more impact from the plant. The impact of noise and smell also continues in the night and on the weekend and is clearly not considered at all by the plant owners /operators. I would also recommend immediate action to work for the removal of the plant completely from its proximity to the townships.
