Categories: Submission/Response

Dear Matthew

Thankyou for providing the EPA with the opportunity to review the Response to Submissions and provide comments on the recommended conditions of consent for this State Significant Development project.

The EPA believes that this project is being undertaken by a private developer and does not constitute an activity carried out by or on behalf of the State or a public authority. In this situation, the EPA is not the appropriate regulatory authority and has no comments on the recommended conditions of consent.

Regards

Wendy
