Subject: RE: Barangaroo Concept Plan MOD 8 - Response to Submissions and Preferred Project Report

Hi Sara

Following a review of the Concept Plan Modification 8, and particularly the updated TMAP, RMS raises no concerns with the Modification concept. Further consultation with RMS, as stated in Appendix A, will be required for progression of conceptual intersection designs to agreed detailed final designs for the two new and one modified Traffic Control Signals (TCS) in Hickson Road.

I hope this information assists.
