Dear Jon

RE: Design Statement: Macquarie Park Village (Melbourne Tower)

This letter is to state that the proposed increase in levels to 10 and travel distance of the lifts with the increase to 3 passenger lifts will be sufficient to service the changes.

KONE has run traffic studies on the building with the capacity nominated as suggested above is fine with the 3 lifts as nominated.

If you require further assistance or have any questions please do not hesitate to contact myself.

Yours sincerely,
KONE Elevators Pty Ltd
