Attention: Director – Modifications Assessments

I wish to have our personal information deleted before publication with regards this matter.

Request to modify concept plan Trinity Point Mixed use development, Application No. MP 06-0309
MOD 3.

With regards the above application my Partner and I wish to object to the helicopter movements as described in the application. I have viewed the proposed flight paths across the lake however which way will the helicopter flight path then take. Also on the web site I have not been able to find results of the noise level pollution tests carried out.

Our property is situated in Wymeera Circuit, Wyee Point and in the near future for our retirement we propose to reside at this location and do not want to have helicopter noise 8 times a day 7 days a week over head. We wish to live at this location in peace and tranquility.

I declare I have not made any political donations.

Yours sincerely
