

5 September 2017

Attention Clay Preshaw
Director, Resource Assessments
Department of Planning & Environment
Level 22, 320 Pitt Street
Sydney NSW 2001

Dear Clay

RE: Removal of Conditions within Project Approvals duplicated in Environmental Protection Licence (EPL) 1429

As previously discussed with the Department, please find attached Origin's assessment and application to modify the conditions of Project Approvals 06_238, 07_0084 and 05_138 to consolidate conditions that are duplicated in EPL1429.

The report includes an outline of the statutory context and approval pathway, strategic justification and assessment of environmental impacts as required by the Department. Table 1 outlines the duplicated conditions. The report demonstrates that there will be no increase in environmental impact from removing the duplicated conditions. Also attached are copies of the relevant Project Approvals, EPL1429 and a map outlining the location of the relevant monitoring points.

Should you have any questions or concerns, please do not hesitate to contact Lauren Barnaby on (07) 3867 0101 or by email lauren.barnaby@originenergy.com.au

Kind regards,

Tony Phillips
