

Since buying here in Shell Cove in 2000 the plans have been changed some many times and the residents have tried to voice their concerns but between council and developers we have had a pretty tough time ,I feel we are losing the beautiful aspect of the cove so that council and developers can make money ,the traffic at our entry and exit is totally unsuited for a bigger development of the Marina/ Boat Harbour even with a new entry this will not fix the current problem let alone future ones IF this lunacy of new Submission goes ahead , Thanking You
