

I'm a frequent user of The Shallows and The Shellharbour South area where the proposed Marina will be built. These extra submissions are too much for Shellharbour's (infrastructure) poor garbage collection, roads, parking, hospital, an already overcrowded area in Shellharbour Village and the shore front. Overcrowding is an issue now, this proposal to enlarge the Marina will only add to this problem. Extra Building heights will also increase overshadowing over our coast/beach. Access into the Shallows and adjoining areas will also be congested due to extra persons. My family moved here to enjoy a quieter life near the ocean, this will impact my family, have a dramatic visual impact, and take away from our low key relaxed coastal feel.

Aren't we meant to be conserving Shell Cove's / Shellharbour's Natural Resources and Coastal Environment ...?
