We moved from Flinders to Shell Cove because we believed the Marina area would be a fantastic place to live. We already regret our decision. If only we could turn back time. Where we currently live, in a Frasers town home while we wait for our house to be built at the Marina, we are unable to drive out of our driveway without doing many three point turns. Why? Because there are so many people jammed into the street we live in that the average household needs to park their cars on the street. It's just horrible. It's also horrible that you can't even raise your voice in your own home without the neighbours hearing. Why? Because we are all crammed in. Why? So the Council and Frasers can make a few dollars extra.

The Marina, we thought, would be this upmarket district to live in. We would be the envy of our friends that we were living in the Marina area. Instead, we are embarrassed that we have wasted our money to build in lego land. There is no prestige to the Marina anymore. The Frasers built town homes are not only poorly designed and built - we know, we live in one, but they have had such a negative impact on the look of this so called world class Marina. They have cheapened the look and feel of the area. Please stop the overcrowding you are creating. The roads are not wide enough to cope with the amount of traffic that will come with this many people living in this area. Please create an area that Frasers will be remembered for in a positive way. Right now, id run from anything Frasers put their name to. Shame on you for ripping our community off.
