

We have chosen to make a lifestyle change from Sydney to Shell Cove and we're drawn to the area to escape the busyness of Sydney including traffic and overcrowding of housing.

These changes that are being submitted take away from this.

The higher buildings will shadow our homes preventing less sun on our homes. With no change to the infrastructure the extra traffic will cause major congestion with one road in and out of the Shell Cove community.

Don't allow this amazing area to be changed to locations in Sydney as it ruins the entire community.
