Dear Mr Herbert

Re: The Wahroonga Estate Development

**Objection to Development proposals MP 07 0166 MOD 6, 7 & 8**

We as a community are astounded at this proposed development. Its approval back in 2010 obviously caught the community 'with its pants down'.

A lot has changed in Sydney in the last 8 years! A lot has changed in the Fox Valley Area

Data used to justify this development back in 2010 is no longer valid.

This proposed development does not meet the expectation of Ku-Ring-Gai Council and certainly not the expectations of the local community.

This proposed development is grossly excessive. Please put a stop to it

I have read the submission of objection from the Wahroonga Church Elders and fully agree with the details and content of objection within.

Yours sincerely

James Monaghan
