

Recipient: NSW Minister for Planning the Hon. Anthony Roberts

Letter: Greetings,

Stop overdevelopment to protect the natural heritage of Sandon Pt /
McCauley Beach, Bulli

Comments

Name	Location	Date	Comment
Lisa Deng	Newtown, Australia	2018-10-25	I love the bush land which surrounds McCauley beach and this is the last large patch in this area. It would be such a shame to lose this beautiful environment. Where will all the native birds and lizards go?
Keegan Haugh	Sydney, Australia	2018-10-25	A friend asked me too
Hao Gao	Thirroul, Australia	2018-10-25	I will support!
Lauren Sharpe	Bulli, Australia	2018-10-26	The area can not cope with the proposal by Anglicare.
Belinda pisana	Australia	2018-10-26	I am saddened by the lack of consideration shown for the community and the environment.
Catherine Lilburn	Woonona, New South Wales, Australia	2018-10-26	I live in the area and don't want to see any further development and destruction to the beautiful flora and fauna
Sarah toole	woonona east, New South Wales, Australia	2018-10-26	This beautiful area needs to be protected from overdevelopment and the road infrastructure cannot handle more traffic.
Ting Song	Wollongong, Australia	2018-10-27	The overdevelopment definitely breaks the ecological balance of these areas and destroys the natural beauty of the scenic spots. Also, the increased number of townhouses can put huge pressure on traffic and other public facilities around. All dwellers will be prone to poor living conditions because the facilities cannot to meet the growing demand for clean water, dispose of household waste and manage sewage. The total quality of life in these areas will be seriously deteriorated.
Jing Bi	Wollongong, Australia	2018-10-27	This beautiful area needs to be protected from overdevelopment and the road infrastructure cannot handle more traffic.
Lindy Ashton	Australia	2018-10-28	The townhouses are out of context with the local area and will impact the safe movement of cyclists and pedestrians who use the currently quiet local road network to connect with the bike path.
Aneesh Krishna	Canning Vale, Australia	2018-10-28	I have lived in this area in the past and fully agree that we need to protect and preserve this area from overdevelopment
Andrew Sharpe	Bulli, Australia	2018-10-28	The roads in this area are barely big enough for local traffic, let alone the through traffic that would be generated by the proposed development.

Kellie Donaghy-Constable	Sydney, Australia	2018-10-28	We need to Stop overdevelopment and protect the natural heritage of Sandon Pt / McCauley Beach, Bulli
angela miller	Woonona, Australia	2018-10-28	The town and the roads are already struggling so much with the rate of development. It really won't handle this additional development.
Joshnkiah Yep	Australia	2018-10-28	Wasn't shutting the tent embassy enough? You gotta destroy more heritage n culture for profit! #SAVEABORIGINALLAND
Julie Power	Bulli, Australia	2018-10-28	I am against over development. In particular in sensitive habitat.
susan sallans	Thirroul, New South Wales, Australia	2018-10-28	I believe that the turpentine forest and aboriginal heritage site should be preserved
Cobban56 Cobban56	Australia	2018-10-28	This area is part of the last riparian corridor left in the northern Illawarra. It contains one of the largest stands of turpentine trees in the Illawarra. It is an area of great indigeneous hertiage + native flora + fauna. Not to mention being primarily a flood zone. Please refer to the 1998 floods in the northern Illawarra. This land needs to be preserved for the environment, safety of the inhabitants and future inhabitants. It is massive and unsustainable development. It will also cause increased traffic congestion, that is already overconjested. Please reconsider this development. It will be a disaster for the area.
Ellen de Jong	Wollongong, New South Wales, Australia	2018-10-28	Not only the natural environment and cultural heritage is at risk here. With only one access road, there is bound to be problems with traffic and ambulances having difficulties getting through, which can put lives at risk especially of frail elderly. Please reconsider this location.
Siimon Rampe	Thirroul, Australia	2018-10-28	Thirroul and the northern suburbs: WE'RE FULL.
Judi Hammond	Pennant Hills, Australia	2018-10-28	Please put a stop to this . Leave the site how it is!
Tina Hunt	Australia	2018-10-28	Enough development has happened in this area & apart from anything else the infrastructure is already stretched.
David Corbett	Wollongong, Australia	2018-10-29	That little patch of forest deserves a life too and we are over developing this area.
Melissa Ellery	Concord, Australia	2018-10-29	It's important to get the balance right between development and nature.
Rick Hodgson	Clemtun Park, Australia	2018-10-29	Stop over development

Name	Location	Date	Comment
Amarni Dayoub	Booker Bay, Australia	2018-10-29	Amarni
alexandra mclellan	Australia	2018-10-29	I don't want this beautiful area destroyed for the sake of overdevelopment. We need to preserve our green spaces.
Ping Yu	Australia	2018-10-29	Yes, we need to get the balance right and preserve this beautiful green space and natural heritage area.
Rick Hodgson	Clemton Park, Australia	2018-10-29	We need to preserve these green spaces for future generations.
Delwyn Crinis	Bulli, New South Wales, Australia	2018-10-29	Overdevelopment without infrastructure has destroyed much of this coast. Pure greed has reigned in this area already causing population explosions. Enough!!!!!!
Cynthia Shuttleworth	Australia	2018-10-29	We need to protect that environment and stop high density development.
Catherine Selden	Cammeray, Australia	2018-10-29	Developers are continuously and relentlessly overstepping the 'boundaries'.
Jun Ma	Wollongong, Australia	2018-10-29	Keep a green space for local people.
Tracey Rose	Australia	2018-10-30	It sacred land
Anne Jones	Australia	2018-10-30	Because this piece of land should've protected and preserved not sold off for profit.
Jennifer Stephens	Jannali, Australia	2018-10-30	I'm fed up with overdevelopment and total disregard for the natural attributes and cultural heritage that are Irreplaceable at and being destroyed
Honngyun Li	Dapto, Australia	2018-11-01	Keep nature natural
Fiona Frith	Wollongong, Australia	2018-11-04	Not safe!!!! No access the other alternate is not safe, this turpentine forest needs to be saved. These wetlands are the last lot in this area. Stop the over development!!!!!!!!!!!!!!
Marie M.	Sydney, Australia	2018-11-04	Hi Ping, Assuming you live in the area, do you know if Stockland are still going to build the infrastructure - i.e. northern pathway to McCauleys Beach, and road connecting McCauley's Beach to Sandon Point - that was included in their development plans that were vetoed by NSW State Gov? No doubt the residents of McCauley's Beach development paid for the infrastructure in the price of their lots, which haven't been delivered to them. If Stockland have abandoned those plans, does this mean that the Developer and Council have pocketed that portion of the investment that the residents contributed towards that infrastructure? Shouldn't they be compensated if the infrastructure hasn't been delivered? Class action by residents in order?

I'd be interested to know how much the new developers are expecting to raise towards budget for road infrastructure, when Stockland still haven't allocated their inf
Jason moorby	Australia	2018-11-04	Hate greed and over developing
Katrice Lowe	Woongarra, Australia	2018-11-05	I want it kept as it is!
Mia Westbrook	Australia	2018-11-05	It's over housed.
Christina Kellow	Australia	2018-11-06	Christina Kellow
Jill Walker	Australia	2018-11-07	This area of Sandon Point is a sacred Aboriginal Women's site and must be protected.
Carl Delaney	Australia	2018-11-08	Traffic congestion is already a massive issue in Bulli & Thirroul. Also this is an Aboriginal heritage site and one of the only nature strips left in the area.
Riley Mills	Australia	2018-11-08	Bong
Marie M.	Sydney, Australia	2018-11-08	Does anyone know whether Stockland are still going to build the infrastructure - i.e. northern pathway to McCauleys Beach, and road connecting McCauley's Beach to Sandon Point - that was included in their development plans, which were given the green light by NSW State Gov? No doubt the residents of McCauley's Beach development paid for the

If Stockland has abandoned those plans, does this mean that the Developer and Council have pocketed that portion of the investment that the residents contributed towards that infrastructure? Shouldn't McCauley's Beach residents be compensated if the infrastructure hasn't been delivered by now? Class action by McCauley's Beach Estate residents in order perhaps??? I'd be interested to know how much the new developers are expecting to raise towards budget for road infrastructure, when Stockland still haven't allocated their infrastructure budget to roads a
Belinda Lee	Thirroul, Australia	2018-11-08	The traffic is already appalling, this will make it so much worse. Please don't approve this development.
helen ferrington	Australia	2018-11-08	Overdevelopment and the roads are inadequate even for the current overdevelopment.
Sam Wild	Wollongong, Australia	2018-11-08	The coastline is getting too built out
Emma Longbottom	Thirroul, New South Wales, Australia	2018-11-08	There's no room for more people in that area. It's over populated by 1000's already!!
Jenny Walsh	Australia	2018-11-08	I don't feel the Wollongong area especially thirroul which doesn't have the infrastructures for 50 units to go ahead. Fix the roads first
Suzanne Montague	Australia	2018-11-08	Over development & creating more traffic congestion
Rhonda Jones	Wollongong, New South Wales, Australia	2018-11-08	We need a hospital and our road fixed before another 57 units are considered
Jackie Burbury	Australia	2018-11-08	Traffic is a nightmare
Julie Small	Thirroul, New South Wales, Australia	2018-11-08	This is an unbelievable overdevelopment for the area
Lorraine Greer greer	Australia	2018-11-08	We need to save this place all the trees and the wildlife that would be living there
Melanie Winton	Thirroul, Australia	2018-11-08	We need improved infrastructure and an alternative route through Thirroul before yet more development creates additional chaos.
Amanda McRae	Coledale, Australia	2018-11-08	There is already excessive development in this area. There is not the infrastructure, especially roads, to support the current level of development.
margaret wall	AUSTINMER, Australia	2018-11-08	Overdevelopment of whole area with inadequate planning for provision of services and traffic management. Nightmare traffic of a weekend. Has taken me up to 40 mins to get from

Name	Location	Date	Comment
			headland ave Austinmer to Thirroul on weekend. Quicker to walk!
Brad Walter	Thirroul, New South Wales, Australia	2018-11-08	Traffic congestion in Thirroul and Bulli is already at breaking point and this will only make it worse.
Angela Blake	Australia	2018-11-08	Over development has to stop. Please stop Ruining our country for money.
Gabrielle Whitehurst	Australia	2018-11-08	The area is already too congested without any thought to traffic and road management. Work on solving the bottle neck first
Taura James	Bulli, New South Wales, Australia	2018-11-08	We do not need further degradation of our area through over development. This amounts to nothing more than sheer greed and will destroy the atmosphere of our beautiful area
Donna McManus	Australia	2018-11-08	No infrastructure to support this. Stop selling out. Keep Illawarra beautiful.
Nick Peatman	Australia	2018-11-08	Over populated
John Fewings	Munich, Germany	2018-11-08	Hands off the trees!
Georgia Willis	Australia	2018-11-08	There is too much development in Thirroul / Bulli and too little thought to traffic, roads, schools among other things.
martin naylor	wollongong, Australia	2018-11-08	we need green space gLOBAL WARMING IS REAL
Melanie Taylor	Thirroul, Australia	2018-11-08	The area will be ruined if they jam more townhouses onto this land. Roads are all ready congested and unsafe for pedestrians. There are many more reasons too I'm sure.
Laura Pritchard	Australia	2018-11-08	Disagreeing due to the removal or green corridor & aboriginal significance
Kim Thompson	Australia	2018-11-08	If we are going to develop more land then organise a alternate route between Thirroul and Bulli.. the traffic is ridiculous. Too many traffic lights.. a 20 min trip to Wollongong now takes minimum 45!in the morning
Susan Difazio	Australia	2018-11-08	The Illawarras coastal area is being overdeveloped and the sense of peace and beauty given to us by natural parks and bush lands should outway that of man made buildings.
Rika Wedlock	Australia	2018-11-08	I live here and we need to keep what space is left that's natural, no more development. No more traffic buildup
Simon Edwards	Sydney, New South Wales, Australia	2018-11-08	It is completely unnecessary and driven by profit

Name	Location	Date	Comment
Brett Darby	Australia	2018-11-08	Cars , cars , cars and more cars Traffic is a joke up north now as it is.
Carmen Fradel	Chiswick, Australia	2018-11-08	The roads are jammed and overcrowded as it is. I have a small business in Thirroul and more people will mean more business but that is not in the best interest of all on the area as the roads are not holding the traffic (especially on weekends) as it is now let alone putting 57 extra homes in the area
Anne McKenzie	Australia	2018-11-08	The roads currently cannot cope with the traffic in the area and are often choked. Please don't overdevelop as Berns done in the Sutherland Shire.
chris Frape	Sydney, Australia	2018-11-08	we dont get to say what gets done with aboriginal land
Kate broadfoot	Australia	2018-11-08	Please get an expert to study the Traffic in this region and make changes before a single New building is permitted. A few simple changes/clearways/no right turns/second access road would make a huge difference. We are log jammed up to here!
Rita Bennett	Sydney, Australia	2018-11-08	Need to keep heritage
Tony Roach	Australia	2018-11-08	I agree 100%
Madeline Mclagan	bundoora, Australia	2018-11-08	Leave as is
Joanne Matuschka	Macquarie Park, Australia	2018-11-08	JMA
Graham Wade	Australia	2018-11-09	I am signing because the Thurgoona community, where I live, is having the same issue with developers clear felling trees to build housing estates. The NSW Government needs to take action on this continued destruction of natural environments.
gill Evans	Woonona, New South Wales, Australia	2018-11-09	This is my part of the country and I don't like seeing it covered in grey bricks
Madeleine Haglund-Gaunt	Australia	2018-11-09	We need some green breathing space!!!
Tristian Allen	Sydney, Australia	2018-11-09	Nature is a part of that environment
Darcy Hough	Australia	2018-11-09	I don't want overdevelopment in my area and preserve the environment
Lisa McDonell	Australia	2018-11-09	I live in this area. Since I moved here eight years ago there have been numerous sets of traffic lights put in within what was a six minute drive to take my children to school due

Name	Location	Date	Comment
			to new housing developments. This drive now takes 15-20 minutes in the morning an increase of well over 100%. The area can simply not handle an increase in population. The area in question is also a haven for bird life and an important nature corridor. The local indigenous population were not listened to during previous developments, please listen to them now. There are more important things in this life than development that occurs at the expense of culture, nature and way of life.
Michael willis	Oak Flats, Australia	2018-11-09	Right on!!
William Forrest	Australia	2018-11-09	Dont want the houses there
Michelle Van der Meer	Sydney, Australia	2018-11-09	Leave the land alone!! There are already too many houses here.
patricia lane	wollonongong, New South Wales, Australia	2018-11-09	This is environmental madness, greed out of control
Kaila Paine	Australia	2018-11-09	It's a heritage site how can development even be considered, plenty of other places to build an aged care facility. Preserve the future
Jade Mcguinness	Wollongong, Australia	2018-11-09	It needs to be protected and restored NOT developed
Dylan Bogoevski	Belfield, Australia	2018-11-10	OVERDEVOLPED
Hannah Hassler	Australia	2018-11-10	We should protect natural heritage.
Nataly Lucía Montero Valdiviezo	Piura, Peru	2018-11-10	To protect ass nature I can
Ashley Swinfield	Australia	2018-11-10	It's wrong
Kara Malss	Sydney, Australia	2018-11-11	Seriously!! How much more pressure can our already stretched roads and facilities cope with? Wollongong Council needs to please stop allowing overdevelopment and especially high density such as this. Overcongestion on LHD is already at breaking point. Consideration for the Aboriginal Heritage site and heritage trees in that area is also of paramount importance.
Lynette Hewett	Wombarra, Australia	2018-11-11	Besides wiping out more of the natural environment and wildlife habitat, there is insufficient infrastructure to support any more human habitation in this area. Stop ruining our beautiful villages.
Robin Forbes	Prahran, Australia	2018-11-11	Robin Forbes signing petition to stop over development.

Name	Location	Date	Comment
Lilly Roccazzella	Australia	2018-11-11	I believe we should protect the natural environment and Aboriginal heritage sites. Building another development will cause more chaos on the already chaotic streets. Bulli and Thirroul need larger roads and more access in and out of these areas not more houses.
Monika Kotrcova	Wollongong, Australia	2018-11-12	This should not be happening
John Hatch	Australia	2018-11-12	Development is excessive, infrastructure not adequate, destruction of natural heritage and cultural heritage should be avoided
Angela Clough	Australia	2018-11-12	It is sacred land and wilderness. Currently the infrastructure is unable to cope the the population explosion of this area- and there are no plans or room for this to change. Keep our green sacred corridors safe.
David Welsh	Wollongong, Australia	2018-11-13	Enough destruction of Sandon Point's green corridor has taken place. About time we protected what's left for our future generations to enjoy!
Ray Hare	Kanahooka, Australia	2018-11-14	I n the year 2000 Stockland developed the beachside with horrible buildings and while graders leveled the site, archiologist's sifted the middens for relics!An Aboriginal elder Uncle Ted Thomas Guboo unofficially renamed the creek Bugeen Creek, named after the spirit of the medicine man who's grave was exposed on the beach nearby.He was also the activist that saved the logging of other cultural site up and down the south coast. So many caring community members stand by his legacy.
Anthony Kelly	Sydney, Australia	2018-11-14	Indigenous rights to there land .During the recent election campaign, Tony Abbott said he would do whatever he humanly could to make Aboriginal land "... an economic asset as well as a spiritual asset ...".
Alison Mercieca	Coledale, Australia	2018-11-15	I care about our cultural and environmental heritage and enough damage has already been done to this area. The local infrastructure is already struggling to cope with increased development- e.g traffic through Thirroul and Bulli is shocking, and dangerous in the latter case, and nothing is being done to alleviate it.
Suzanne Duyster	Australia	2018-11-19	It's an Aboriginal Heritage Site!! That knowledge should be enough to leave it alone!! We already have taken to much away from these people. Especially the churches!!!!!!!!!!!!Since when does Anglicare buid private housing? The aged care facilities have done more than enough damage throughout the country. I am not saying we don't need them. But we desperately need a different take on health care as in allowing the elderly to stay in their own homes and have the necessary care there, as long as that is mentally possible. By doing this we create more home care jobs, happier elderly people, a lesser burden on the environment and a much lesser feeling of resentment from Aboriginal communities.

Name	Location	Date	Comment
Geoff Dengate	Australia	2018-11-25	Save the heritage and to persevere the area
patricia lane	wollonongong, New South Wales, Australia	2018-11-25	Environmentally damaging, traffic congestion that infrastructure is already unable to cope with
Alan Bond	Australia	2018-11-27	This area is the last green vestige from the Illawarra Escarpment to the shore.
Frank Vorreiter	Bulli NSW, Australia	2018-11-28	The local roads and infrastructure will not cope (it is already challenging now) with the significant additional traffic which would be introduced should this unwise development go ahead, the housing development proposed is completely out of character and jars with the style and standard of housing already in place around the location , and the local natural environment and Aboriginal heritage areas would be lost to us and future generations significantly changing the character of the area negatively forever.
Bruce Storey	Strathfield, Australia	2018-12-04	Protect & preserve this green space & the many species of bird life using this green patch. It would be a ideal green sanctuary for the retirement home residents.
Pia M	Marrickville, Australia	2018-12-05	Stop development in Mcauley's beach area and take care of Sandon Points aboriginal heritage! Soon we will not have any nature left and this will kill all the rare bird life nesting in this area. Show respect to the nature please , as we don't have many areas left like this anymore 💎💎Why is this developmental difference from Stocklands development that got rejected 2010
