**Minmi Link Road (MP 10_0090 MOD 3) -
Supplementary Response to Submissions**

Dear Casey

Thank you for your email dated 19 December 2018 inviting Transport for NSW (TfNSW) to provide comments on the subject matter. Roads & Maritime Services will provide a separate response.

A review of the supplementary response to submissions has been undertaken. The suggested new condition would defer the required assessment of the State road network be undertaken prior to issue of any Construction Certificate for proposed subdivision. Such changes would mean that impacts of the proposed development on the existing State road network would not be known until post approval of the concept plan. The applicant's suggested amendment to the current condition 1.31 of the concept approval does not essentially address the concern raised by Roads and Maritime and is not supported by TfNSW.

Thank you for referring the subject matter to us for review. For future correspondence, please refer to development@transport.nsw.gov.au and it will be attended accordingly. I hope this has been of assistance.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Mark Ozinga'.
