**(MP 10\_0090 MOD 4) – Minmi/Link Road Concept Plan  
Notification of Modification**

Dear Casey

Thank you for your email sent on 15 August 2019 notifying Transport for NSW (TfNSW) of the opportunity to provide comments on the subject modification application. Roads & Maritime Services (Roads and Maritime) will provide a separate response.

A review of the requested modification to the concept approval has been undertaken. The suggested new conditions would defer the required assessment of the State road network to be undertaken as conditions of consent for subsequent development applications. Such changes would mean that impacts of the development and appropriate mitigation measures on the existing State road network would not be known until after the approval of subsequent development applications.

Having regard for the above, the applicant's suggested amendment to Condition 1.31 of the project approval would not be supported by TfNSW.

Thank you for referring the subject matter to us for review. Should you require any further information or wish to discuss, please contact Ken Ho, Transport Planner, at [ken.ho@transport.nsw.gov.au](mailto:ken.ho@transport.nsw.gov.au). I hope this has been of assistance.

Yours sincerely

2/9/2019
