Dear Michelle,

DPI Fisheries provides the following comment on the Addendum RTS for MP 09_0131 MOD 1 at Tallawarra Lands, Yallah:

1. To maintain the ecological health of Lake Illawarra it is important that final stormwater treatment measures are designed in accordance with the 'improve' targets set under the risk-based framework for waterway health outcomes. As stated in previous correspondence from DPI Fisheries the MUSIC modelling accompanying this proposal compares the performance of the developed site with water quality protections against the performance of the developed site without water quality protection. This simply indicates that the discharging from the site will be somewhat better with the proposed stormwater treatments in place compared to what it would be without any stormwater treatment. A necessary analysis is to compare the existing site (i.e. grazing and forested land) against the development with water quality protections in place to show whether the development could achieve agreed water quality targets.

2. The MUSIC modelling predicts that the proposal in its current form will discharge 6970 kg of Suspended Solids, 40.6 kg of Phosphorus, 483 kg of Nitrogen and 32.3 kg per year of Gross Pollutants to the waters of Lake Illawarra every year of the life of the Development. DPI Fisheries questions how such discharge compares to the current discharge from the site and whether this meets the 'improve' requirement under the risk-based approach to stormwater targets for waterway health.

Dear Michelle

At this stage I have not received comments from DPI Fisheries.

I will advise DPI Fisheries that if they have comments to contact you directly.

Many thanks, Sophia

Good Morning,

Please find link to the Addendum Response to Submissions (RtS) from the Proponent responding to issues raised notification of the RtS -

http://www.majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=8059

The Department would like to provide DPI & Crown Lands with an opportunity to review the Addendum RtS. A separate email has been sent to DPIE – NRAR and Water and DPIE – Fisheries.

Any further comments on the modification should be received no later than **Friday 6 December 2019**. When sending your response, please also include Silvio Falato, Team Leader Regional Assessments, in the email. Silvio is cc'ed to this email.

If you have any questions, please feel free to call me.

Kind regards,

Michelle Niles
