REPORT

**ILLAWARRA INTERNATIONAL HEALTH PRECINCT
CORNER OF AVONDALE AND HUNTLEY ROAD**

**ABORIGINAL SITE OFFICER
ROY STEWART
FRIDAY 16 JANUARY 2009**

SURVEY AIM:

To conduct an Aboriginal Heritage survey to identify Aboriginal sites and Aboriginal Cultural heritage constraints at this early stage of the planning and process.

To ensure the proposed development of the land does not have an adverse impact upon the Aboriginal cultural heritage values of the place.

SURVEY EXAMINATION:

An Aboriginal Site Officer participated in a field investigation on foot of the subject site being a small parcel of land on the corner of Avondale and Huntley roads, Penrose.

OUTCOME:

The Site Officer noted that the Pipeline runs through this property, no Artefacts were identified during the survey.

RECOMMENDATIONS:

- Any excavation work carried out on this site will require Aboriginal site monitoring.
- Any Aboriginal artefacts identified during construction should remain in their place; if this is not possible then a care and control process should be discussed with the relevant Aboriginal stakeholders.
- The Developer should enter into discussion with the Aboriginal community regarding Employment opportunities created throughout this project.

If you require any further information regarding this report, please don't hesitate to contact me on the numbers listed below.

Yours in UNITY
