**RE: PRINCE OF WALES, MEDICAL RESEARCH  
INSTITUTE – STORMWATER DESIGN LETTER**

Attn: Claire Wright

TTW designed the stormwater system for the Prince of Wales, Medical Research Institute development to ensure that the maximum stormwater discharge from the site will not exceed that which would occur during a 1 in 5 year storm of 1 hour duration for the existing site conditions.

This satisfies the requirements of Randwick City Council's stormwater code – Appendix A.

Yours faithfully
