

# UTS: KURING-GAI CAMPUS

## TELL US WHAT YOU THINK

In June 2008, the NSW Minister for Planning approved the University's Kuring-gai campus rezoning application and concept plan.

UTS now seeks to amend the concept plan to comply with the conditions detailed in the Minister's approval and to retain the gymnasium the University previously sought to demolish.

In December 2009, the NSW Department of Planning will consider the University's proposed amendment which is outlined in the diagram opposite (retained gymnasium highlighted in red). If accepted, the amended UTS Kuring-gai Campus Concept Plan will include the gymnasium as it stands today and the local community will retain a popular amenity.

For information about the approved concept plan, including the original site plan and the Minister's determination (project approval), please visit the NSW Department of Planning's [website](#) (Major Projects Register).
