Attention: Mr. Greville Ingham

Dear Greville

**Re: Cardinal Freeman Village
Masterplan Documentation**

As requested we write in reference to the Masterplan documentation for the Cardinal Freeman Village project.

Attached is a report which identifies the strategies related to the Masterplanning of the hydraulic services to cater for the proposed developments on the site along with the basis of individual calculations. The appendix at the rear of the report details the specific strategies related to the Village Green and Care Precincts.

The report has been compiled to address the issues raised in the Directors General's report and where necessary the requirements of Ashfield Council.

Should you require anything further then please contact the undersigned.

Yours faithfully

Whipps-Wood Consulting Pty Ltd

Anthony Whipps
Director
