***RE: CARDINAL FREEMAN VILLAGE, VILLAGE GREEN PRECINCT***

JHA wishes to advise that the master planning implications for the electrical, communications, security and fire detection services associated with the Village Green Precinct of the site have been considered and are adequately addressed within the JHA Master Plan Report.

The interfacing of such Village Green services into the remainder of the site have been considered and addressed in both a written form within the report and further illustrated by way of site plan infrastructure drawings.

Please contact the undersigned should further detail be requested.

Yours sincerely

  
Jim Hatzimanolis  
**Director**
