EXECUTIVE SUMMARY

This report details the methodology and results of a Stage 1 Contamination Assessment undertaken by Douglas Partners Pty Ltd (DP) for the proposed redevelopment of the Marrickville Metro Shopping Centre located at 34 Victoria Road, Marrickville (refer to Drawing 1, Appendix A). The land at 13-55 Edinburgh Road which is located to the south of Smidmore Street is also included in the proposed development, and is bounded by Edinburgh Road and Murray Street. This site is currently used as a warehouse with associated ground level car parking.

AMP Capital Investors (AMPCI) owns Marrickville Metro Shopping Centre and the land to the immediate south at 13-55 Edinburgh Road, Marrickville. DP has been engaged by Bovis Lend Lease (Project Manager) on behalf of AMPCI to prepare a report to accompany a Concept Plan Application under Part 3A of the *Environmental Planning and Assessment Act 1979* for the proposed redevelopment of the Marrickville Metro Shopping Centre. The development is being considered under Part 3A of the Act as it satisfies the criteria described in Schedule 1 of the Major Projects State Environmental Planning Policy (Major Projects SEPP).

AMPCI proposes to upgrade and expand Marrickville Metro Shopping Centre to accommodate additional retail floor space, improved facilities and services, as well as enhance convenience and accessibility for the community.

DP previously conducted a tank pit validation assessment at 13-55 Edinburgh Road (previously identified as 2-28 Smidmore Street). The findings of the validation were presented in a report entitled *Report on Tank Pit Validation, 2-28 Smidmore Street, Marrickville*, report reference 24254, dated 3 February 1997. The findings of this assessment are summarised in Section 5.6 of this report.

A Conservation Management Plan for the 'Mill House' at 34 Victoria Road, Marrickville prepared by Graham Brooks & Associates in July 2007 was provided by the client for review. The plan provided historical information presented in Section 6.4.

The objective of this Stage 1 assessment is to provide preliminary information on the potential for soil and/or groundwater contamination as a result of past and current site activities and, where applicable, to identify the contaminants of concern.

The scope of work for the current assessment comprised a site walkover inspection, review of site history and groundwater bore search.

A review of historical information indicates that the northern portion of the section was a tanning factory in the late 1800s and subsequently re-established for wool manufacture (wool scour) before the shopping centre was constructed in late 1980s. The southern portion of the site has been used for a variety of commercial / industrial purposes since the early 1930s.

A review of the Council's development application records and site walkover reveals that some potentially contaminating industries are operating at the site, including the auto repair service provided by Kmart Oil in the eastern portion of the site and the dry cleaner located near to the Smidmore Street entrance. A film and film processing outlet also previously operated at the shopping centre and, therefore, solvents and other chemicals might have been stored at the site.

Based on findings from a previous DP validation assessment, it is known that there were three USTs present at the southern portion of the site. A disused fuel point was noted on the footpath of Murray Street during site inspection which indicates that a fourth UST may be present in the eastern portion of the warehouse. An electricity sub-station was also noted at the corner of Smidmore Street and Murray Street which was constructed in 2006. This part of the site was previously owned by Energy Australia and, therefore, it may have been used as electricity sub-station site prior to 2006. Residual PCBs may potentially present in this part of the site.

The main sources of potential contamination at the site are likely to be associated with the former and current contaminating activities identified in this assessment. In particular, the presence of the dry cleaners, the disused fuel point located in the footpath of Murray Street and the auto and tyre repair in the eastern portion of the shopping centre complex and the tannery and wool scouring in the northern portion.

It is recommended that an intrusive investigation be carried out to verify the status of the site with respect to contamination. Acid sulphate soil testing should also be included as part of the investigation. Furthermore, groundwater monitoring wells should be installed across the site to obtain an understanding of the hydrogeological conditions and groundwater quality at the site which has the potential to have been impacted by the current and former uses of the site.

**REPORT ON STAGE 1 CONTAMINATION ASSESSMENT
MARRICKVILLE METRO SHOPPING CENTRE
34 VICTORIA ROAD & 13-55 EDINBURGH ROAD, MARRICKVILLE**

1. INTRODUCTION

This report details the methodology and results of a Stage 1 Contamination Assessment undertaken by Douglas Partners Pty Ltd (DP) for the proposed redevelopment of the Marrickville Metro Shopping Centre located at 34 Victoria Road, Marrickville (refer to Drawing 1, Appendix A). The land at 13-55 Edinburgh Road which is located to the south of Smidmore Street is also included in the proposed development, and is bounded by Edinburgh Road and Murray Street. This site is currently used as a warehouse with associated ground level car parking.

AMP Capital Investors (AMPCI) owns Marrickville Metro Shopping Centre and the land to the immediate south at 13-55 Edinburgh Road, Marrickville. DP has been engaged by Bovis Lend Lease (Project Manager) on behalf of AMPCI to prepare a report to accompany a Concept Plan Application under Part 3A of the *Environmental Planning and Assessment Act* 1979 for the proposed redevelopment of the Marrickville Metro Shopping Centre. The development is being considered under Part 3A of the Act as it satisfies the criteria described in Schedule 1 of the Major Projects State Environmental Planning Policy (Major Projects SEPP).

AMPCI proposes to upgrade and expand Marrickville Metro Shopping Centre to accommodate additional retail floor space, improved facilities and services, as well as enhance convenience and accessibility for the community.

DP previously conducted a tank pit validation assessment at 13-55 Edinburgh Road (previously identified as 2-28 Smidmore Street). The findings of the validation were presented in a report entitled *Report on Tank Pit Validation, 2-28 Smidmore Street, Marrickville*, report reference 24254, dated 3 February 1997. The findings of this assessment are summarised in Section 5.6 of this report.

A Conservation Management Plan for the 'Mill House' at 34 Victoria Road, Marrickville prepared by Graham Brooks & Associates in July 2007 was provided by the client for review. The plan provided historical information presented in Section 6.4.

The objective of this Stage 1 assessment is to provide preliminary information on the potential for soil and/or groundwater contamination as a result of past and current site activities and, where applicable, to identify the contaminants of concern.

2. PROPOSED DEVELOPMENT

The proposed development of the Marrickville Metro has three key elements:

- An extension of retail floor area at first floor level above the existing shopping centre building with further additional roof top parking above;
- Redevelopment of the existing industrial land south of Smidmore Street (13-55 Edinburgh Road) to create a two level retail addition to the shopping centre with car parking above.
- The closure of Smidmore Street between Edinburgh Road and Murray Street in order to create a new pedestrian plaza including a two storey retail link and car parking access (refer to Drawing 2, Appendix A).

The additional retail floor area will primarily accommodate a discount department store, supermarket, mini major and specialty retail space. The development will incorporate additional car parking as well as improved vehicle access and loading facilities.

The proposal will create a new urban plaza in Smidmore Street and will be complimentary to an enhanced public space fronting Victoria Road. The proposal will include works to the public domain in order to improve the pedestrian, cycling and public transport connections to and from the site and enhance pedestrian and patron safety.

Owing to the scale of the project and the need to undertake the development whilst maintaining a safe and functional retail centre, it is proposed that construction will occur over at least two discrete stages.

Stage 1 will involve the redevelopment of the industrial site at 13-55 Edinburgh Road to accommodate the new two level retail centre including car parking above. This work will also incorporate the creation of the pedestrian plaza and retail extension across Smidmore Street linking the two retail buildings and the refurbishment of the existing shopping centre building fronting the northern side of Smidmore Street.

Stage 2 will involve the first floor level retail extension over the existing shopping centre building with the proposed additional car parking at roof top level.

3. SCOPE OF WORKS

The scope of works for the Stage 1 Contamination Assessment is as follows:

- Search the current and historic titles and deposited plans to identify previous owners that may indicate a potentially contaminating activity;
- Search the historic aerial photographs to identify land uses and changes in the land that may indicate potential for contamination;
- Search the contaminated land register for Notices issued under the *Contaminated Land Management Act 1997* (CLM Act);

- Search WorkCover database records for any dangerous goods licence or other approvals that may indicate contaminating activities;
- Search of the licensed groundwater bore database to aid in the assessment of groundwater quality and potential receptors;
- Review of topographical and geological maps of the region;
- Review of any previous reports and historical information readily available for the site including *A Conservation Management Plan for the 'Mill House' at 34 Victoria Road, Marrickville* prepared by Graham Brooks & Associates, July 2007;
- Review of Section 149 Parts 2 and 5 Planning Certificates and historic development application records at the site provided by Marrickville council under the *Freedom of Information Act*;
- Assess the potential for site contamination and formulate a scope for the intrusive investigations as part of the Stage 2 Contamination Assessment; and
- Preparation of a Stage 1 Contamination Assessment report.

4. SITE DESCRIPTION

The site comprises the Marrickville Metro Shopping Centre, situated north of Smidmore Street, and industrial buildings to the south of Smidmore Street. The site is identified as Lot 100 in Deposited Plan 715231, Lot 1 in Deposited Plan 612551 and Lot 1 in Deposited Plan 316613. The Lot layout is shown Appendix C and a photographic plan of the site is shown in Drawing 1, Appendix A.

The shopping centre is located within an established residential and industrial precinct surrounded by small lot residential housing to the north and west, and predominantly industrial land comprising larger allotments and larger building scales to the south and east.

The existing shopping centre fronts Victoria Road to the north, Murray Street to the east and Smidmore Street to the south and is adjoined by single storey residential dwellings to the west. The shopping centre is predominantly a single level retail building which covers an

area of approximately 22,000 m² and comprises major tenants Kmart, Woolworths and Aldi as well as a range of speciality stores. Car parking is located at roof top level with existing vehicle ramp access via Smidmore Street and Murray Street. The shopping centre, initially constructed in the late 1980s, has undergone a series of refurbishments. Located on the site adjoining the shopping centre is the "Mill House", which is a listed heritage item. In addition, the "Old Vickers Mill" façade is located around parts of the perimeter of the site.

The shopping centre building is of 1980s style with loading docks on the northern, eastern and western sides of the building. The centre management office is located in the historical building, the Mill House, located to the north of the shopping complex. A dry cleaning shop is located adjacent to the Smidmore Street entrance. A detailed inspection could not be carried out at the time of inspection but it appears that the internal drainage is located in the western side of the shop.

An electricity sub-station is located at the south-eastern corner of the shopping centre. An oil/water separator is located to the south of the Mill House which is used by Kmart Oil. Kmart Oil is currently trading as an auto and tyre repair facility. Grease traps were also noted at the loading docks.

The southern portion of the site comprises two warehouse buildings, currently occupied by a food packaging warehouse. The products stored at the site include disposable plates, cutlery, cups, etc. The main parking area is located to the west of the buildings. The surface cover consists of concrete paving and concrete building slabs with landscaping around the site boundary. The paving appears to be in a good condition at the time of the site visit.

An old underground storage tank (UST) fill point was noted on the footpath of Murray Street. The fill point was filled with concrete and it appears that the fuel point was connected to an UST located inside the warehouse. There were no signs of the presence of a UST located inside the warehouse. The tank is likely to be decommissioned and either buried beneath the existing concrete floor or has been removed off site.

It is understood that a culvert is located beneath the warehouse building which extends to the Cooks River. The culvert runs in a diagonal direction from the north-eastern to the south-western corners of the site.

5. REGIONAL GEOLOGY, TOPOGRAPHY AND HYDROGEOLOGY

The Geological Map of Sydney (Scale 1:100,000) published by the Department of Mineral Resources indicates that the residual soils within the site are underlain by Triassic Age Shale of the Wianamatta Group, comprising black to dark grey shale and laminitite. The south-western portion of the site may be underlain by Quaternary Age alluvial and estuarine sediments.

The Soil Landscape Map of Sydney (Scale 1:100,000) prepared by the Soil Conservation Service of NSW indicates that the site is predominantly located within the Blacktown landscape area which typically consists of highly plastic and relatively impermeable residual soils. The map also suggests that the south-western portion of the site may be underlain by deep podzolic alluvial soils.

DP has undertaken a number of geotechnical investigations in the vicinity of the site in the past. The findings have generally confirmed the mapping information discussed above, with typically clayey soils overlying weak shale bedrock at depths of around 4 m below existing ground level. The investigations have also revealed various filling types to depths of between 1 m and 1.5 m. Measured water levels in a number of the bores ranged between 1 m and 3.5 m below ground level. One project site, located to the south of the subject site, reported alluvial clays to 6 - 7 m, with shale bedrock at about 8 m depth.

Based on the geological sequence encountered during the validation excavation works previously undertaken by DP in 1997, the southern portion of the site is underlain by residual clay over weathered shale.

The section south of Smidmore Street slopes gently down to the south and it appears that the level of the site may have been achieved by minor filling across the southern end of the site.

Observation of the local topography suggests that groundwater in the immediate vicinity of the site would be expected to flow in a south-easterly direction towards Alexandra Canal (Sheas Creek), which drains into the Cooks River and Botany Bay. It is noted that there are two current EPA (DECC) CLM Act Notices issued for the Alexandra Canal.

6. ACID SULPHATE SOILS

A review of the Botany Bay *Acid Sulphate Soils Risk Map* (Edition 2, DLWC, 1997) indicated that the southern portion of the site is located in an area of 'disturbed terrain'. Disturbed terrain may include filled areas, which often occur during reclamation of low lying swamps for urban development and soil investigations are required to assess these areas for acid sulphate potential. Therefore, there is low potential for Acid Sulphate Soils (ASS) to be present on site.

7. SITE HISTORY

7.1 Site History

A site historical information review was conducted, comprising a title deeds search, a review of historical aerial photographs, a review of the Contaminated Land Register for Notices issued under the CLM Act, WorkCover Dangerous Goods records and Council records (including Section 149 (2 & 5) Planning Certificates and historical development application records) as well as a groundwater bore search of the Department of Water and Energy (DWE; functions now split between NSW Office of Water and Department of Environment, Climate Change and Water [DECCW]) database. The full site history search information referenced in the following sub-sections is presented in Appendix C.

7.2 Title Deeds

A historical title deeds search was performed to obtain ownership or occupancy information on the property, including company names and the occupations of individuals. The title information, particularly through company names, can assist in the identification of previous land uses and can therefore assist in establishing whether there were potentially contaminating activities occurring at the site. In regards to the northern section of the site at 34 Victoria Road, Marrickville, Lot 100 in Deposited Plan 715231 has been divided in two sections, marked (A) & (B) on the attached cadastre (see Appendix C). In regards to the

southern section of the site at 13-55 Edinburgh Road, Lot 1 in Deposited Plan 612551 has been divided into 23 sections, marked 1-23 on the attached cadastre. The title deed search results are summarised in Tables 1 - 30. In establishing the possible use of the site, information has also been drawn from other sources such as aerial photographs.

7.2.1 Title Deeds for 34 Victoria Road, Marrickville

Table 1 - Historical Title Deed Record for Lot 100, DP 715231, part (A)

Date	Owner/Occupier	Possible Site Use

24.11.2005 (2005 to date)	# Marrickville Metro Shopping Centre Pty Ltd	Substation

Current Registered Proprietor

Based on the title deeds, it appears that most of the northern section of the site had residential use prior to 1942 when it was purchased by John Vicars & Co, Wool Manufacturers. This section of the site was owned by G J Coles & Coy Limited in the period between 1984 and 1986. Subsequently it was owned by Pedome Pty Ltd (1986-1997) and DeVillesta Pty Ltd (1997-2004). AMP Marrickville Pty Ltd purchased the site in 2004.

The south-western corner of the site was owned by the wool manufacturing company prior to 1927 when it became sub-station and property of The Municipal Council of Sydney (now Energy Australia).

Current Registered Proprietor

Based on the title deeds, it appears that most of the western section of 13-55 Edinburgh Road, Marrickville was used mainly for residential purposes from at least 1908 (the year of the records obtained) to 1957. The site was owned by Perpetual Trustee Company (Limited) from 1957 to 1965 with most probably a commercial land use (Perpetual Trustee Company is a financial services company). This section of the site was occupied by Marrickville Margarine Pty Ltd (1965 -1971) most likely for the production of margarine. Subsequently it was owned by Associated Products & Distribution (1971-1980) and Leda Holdings (1980 -1989) when it was used for commercial purposes (Leda Holdings is a property development company).

Most of the eastern section of 13-55 Edinburgh Road was used mainly for residential purposes from at least 1914 (the start year for the records obtained) to 1934. This section of the site was most probably used for cordial production (owned by Shelley & Sons Cordial Factory Limited) from 1934 to 1980. Leda Holdings Pty Ltd owned this section of the site in the period between 1980 and 1989 (most likely as a commercial land use).

The whole site was used for commercial purposes from 1989 till present. The current proprietor of the site (AMP Marrickville Pty Ltd) purchased the site in 2004.

The title deed search results for the site are included in Appendix C.

7.3 Aerial Photographs

Aerial photographs from 1930, 1955, 1961, 1970, 1986 and 2005 were obtained from the NSW Department of Lands Office, the 1943 image was obtained from the NSW Department of Lands website (www.lands.nsw.gov.au) and the recent image was obtained from the Google Map website (www.maps.google.com.au) on 3 March 2010. The aerial photographs are presented in Appendix C. These aerial photos were reviewed to assess the possible past uses of the site. The findings are summarised below.

1930 – The site was divided by Smidmore Street into two sections. The northern section of the site consisted of two large, and a number of small, industrial type buildings which are believed to be the Vicars Woollen Mills. Three cottages (including the ‘Mill House’) and the surrounding landscaped areas are visible at the north-western portion of the subject section.

The southern section of the site consisted of one large warehouse at the north-eastern corner and a number of smaller industrial/commercial and residential type buildings. There are residential buildings east and west of the site and industrial/commercial type buildings north and south of the site.

1943 – No significant change to the landuse or the surrounding area was observed from the 1930 photograph. A number of small industrial buildings replaced the landscaped areas and the two cottages at the north-western corner of the northern section of the site. The ‘Mill House’ was still present at the site.

1955 – No significant change to the land use or the surrounding area was observed from the 1943 photograph.

1961 – No significant change to the land use was observed at the northern section of the site. All buildings at the southern section of the site had been demolished and replaced by one large warehouse and a number of small industrial/commercial buildings visible at the eastern portion. The western portion is vacant land. There was no significant change to the land use of the surrounding area.

1970 - No significant change to the land use of the northern section of the site or the surrounding area was observed from that of the 1961 photograph. The large warehouse at the southern section of the site was extended in a north-easterly direction.

1986 – All buildings at the northern section of the site (except the ‘Mill House’ situated at the north central portion) had been demolished and the land was vacant and covered with grass and a few trees. The small buildings previously present at the southern section of the site had been demolished and the area covered with concrete most likely for use as a car park. The large warehouse previously present at the eastern portion and a smaller building are visible south of Smidmore Street. There was no significant change to the land use of the surrounding area.

2005 – The Marrickville Metro Centre had been built and was occupying the entire northern section of the site, except for the area around the ‘Mill House’. No significant change to the land use of the southern section of the site or the surrounding area was observed from that of the 1986 photograph.

Recent - No significant change to the land use or the surrounding area was observed from the 2005 photograph.

7.4 Review of Conservation Management Plan for the 'Mill House'

The Conservation Management Plan provided historical information relating to the northern section of the site (i.e. north of Smidmore Street). The Plan is attached in Appendix C.

The plan indicates that the subject section of the site was part of a 30 acre land grant made to James Waine on 5 September 1795. These early grants were referred to as farms and were intended to supplement the food supply of the colony. It is suggested that the cottage (later referred as the 'Mill House') was built between July and November 1839. In July 1863 the property was purchased by Robert Koll who set up a tannery on the site. Tanning is the early stage in leather production. After Koll's death in 1867 part of the property was sold to Joseph Davenport and Thomas Alcock who maintained the tanning operation and also developed a boot making business. In 1893 the property was forfeited to the London Chartered Bank and was purchased by John Vicars & Co, Wool Manufacturers. A number of large warehouses and smaller industrial and storage buildings were constructed in the period between 1895 and the factory closure in 1978. It is indicated that a building associated with wool scouring and carbonising was situated at the north-western portion of the site adjacent to the 'Mill House'. G J Coles & Co Limited purchased the property in June 1982. Subsequently the Marrickville Shopping Centre was constructed on the northern section of the site. The 'Mill House' was given protection in 1980 under Section 130 of the *NSW Heritage Act 1977*. The 'Mill House' was refurbished again in 2006 and is currently used as commercial offices and professional consulting rooms.

7.5 Council Records

The subject site is located within Marrickville Council area. The northern section of the site at 34 Victoria Road, Marrickville is zoned General Business 3A and the southern section of the site at 13-55 Edinburgh Road is zoned General Industrial 4(A).

According to the Section 149 (2&5) Planning Certificate, the site has not been declared to be "significantly contaminated land" under Part 3 of the *Contaminated Land Management Act 1997* or subject to a Site Audit Statement. The planning certificates indicate that the site is 'identified as being subject to acid sulphate soil risk under clause 57 of Marrickville Local Environmental Plan 2001'. The Section 149(2) Planning Certificates are included in Appendix C.

A review of the historical development application records was also undertaken as part of the site history search. The earliest record at the existing Marrickville Metro site was dated 1952. The record relates to an alteration to the factory building and addition of a toilet facility. The applicant was the John Vicars & Co. Subsequent alterations were carried out at the factory building until 1962. No records were registered from 1962 until 1985 for the lodgement of a development application for the shopping centre. The application was subsequently approved in 1986.

Numerous development applications were noted from 1987 onwards relating to the individual retail outlets at the shopping centre. Those indicate potentially contamination activities are summarised below:

- Kmart outlet at Shop M1, including garden shop, restaurant, auto car repair and associated amenities, staff office and preparation area (DA215D/1986);
- Film and photograph processing outlet at Shop 63 from 1987 to 1990 (DA562/1987 and DA497/1990);
- Dry cleaning outlet at Shop 3B from 1992 to present (DA208/1992); and
- Valet car wash at roof top car parking (DA634/1995).

Apart from the dry cleaning and Kmart outlets, the other outlets have since ceased operation.

The earliest development record at the southern portion of the site dated 1957. The record relates to the construction of a brick factory and the applicant was J Buchanan. Subsequent application was made by Shelley & Sons in 1960 in relation to the erection of a bottle shop. Minor alteration works were carried out at the factory until 1980. The building was altered to as a warehouse with office and other facilities.

7.6 WorkCover NSW Dangerous Goods Database and other UST Related Information

A search of the NSW WorkCover dangerous goods database indicated that there were no dangerous goods depots registered at the site. However, as noted in Section 1, DP conducted validation of two tank pits at 13-55 Edinburgh Road, Marrickville. The tank pits were formed during the removal of three USTs in January 1997. It is understood that the tanks were used for storage of petroleum fuel. Two of the tanks, each with capacity of 22,500 L, were formerly located in the central, northern portion of this section of the site, immediately to the west of the corrugated storage shed. The third UST, with a capacity of 16,000 L, was formerly located in the north-western section of the main factory warehouse building. The age of the tanks was unknown. It is understood that the tanks had been decommissioned at some stage prior to the tank removal. The tanks were removed by N. Moit & Sons Earthworks on 7 and 8 January, 1997, under instruction from Gilbarco Pty Ltd. The results of the tank pits and backfill soil validation were below the site assessment criteria and it was considered that the potential for further contamination of the site and off-site migration of contaminants, associated with the former USTs, was low.

Based on the observations noted during the site inspection, another UST is possibly located in the eastern portion of the warehouse building as a decommissioned fuel point was noted on the footpath of Murray Street. However, no signs of the UST were noted in the warehouse. It appears that the UST was either removed or located beneath the concrete slab of the building.

WorkCover search documentation are attached in Appendix C.

7.7 Regulatory Notices Search

The NSW DECCW publishes records of contaminated sites under Section 58 of the CLM Act on a public database accessed via the internet. The notices relate to investigation and/or remediation of contaminated site considered the land to be significantly contaminated land under the definition in the CLM Act. More specifically, the notices cover the following:

- actions taken by the EPA under Section 15, 17, 19, 231, 23, 26 or 28 of the CLM Act;
- actions taken by the EPA under Section 35 or 36 of the *Environmentally Hazardous Chemicals Act 1985*;
- site audit statements provided to the EPA under Section 52 of the CLM Act on sites subject to an in-force declaration or order.

The NSW DECCW also issues environmental protection licences to the owners or operators of various industrial premises under the *Protection of the Environment Operations Act 1997* (POEO Act). Licence conditions relate to pollution prevention and monitoring, and cleaner production through recycling and reuse and the implementation of best practice. Although the NSW EPA is now a part of the NSW DECCW, certain statutory functions and powers continue to be exercised in the name of the EPA.

The NSW DECCW has made available a public register of licences under Section 308 of the POEO Act. The register contains:

- environment protection licences;
- applications for new licences and to transfer or vary existing licences;
- environment protection and noise control notices;
- convictions in prosecutions under the POEO Act;
- the results of civil proceedings;
- licence review information;
- exemptions from the provisions of the POEO Act or Regulations;
- approvals granted under clause 9 of the POEO (Control of Burning) Regulation; and
- approvals granted under clause 7A of the POEO (Clean Air) Regulation.

A search of Notices on the DECCW website on 8 March 2010 indicated that there are currently no Notices and/or Licences listed for the subject site. The nearest registered site is located approximately 1 km southeast to the site, the former Tempe Tip.

7.8 Groundwater Bore Search

A search of the DWE website groundwater bore database was conducted (water related issues are now the responsibility of the NSW Office of Water). A total of 14 bores were located within a 2 km radius of the site. The bores are located approximately 1 km northeast and 700-900 m southeast of the site mainly for monitoring purpose, with the exception of GW10053, refer to Table 31 below, which was registered for a recreational purpose, possibly for an irrigation use at Sydney Park, St Peters. Bore construction details are provided in Table 31 below. The groundwater bore search map is shown in Appendix C.

Table 31 - Groundwater Bore Search Results

Bore ID	Distance and Direction from site	Standing Water Level (m bgl)	Geology	Purpose
GW105317	1000 m northeast	1.7	Fill and Clay	Monitoring
GW072643	950 m southwest	Not known	Fill, Sand and Clay	Test Bore
GW100053	950 m southwest	Not known	Fill, Sand and Clay	Recreation
GW109729	1100 m northeast	1.4	Fill and Clay	Monitoring
GW109730	1100 m northeast	1.0	Topsoil and Clay	Monitoring
GW109731	1100 m northeast	1.0	Topsoil and Clay	Monitoring
GW109732	1100 m northeast	1.5	Topsoil and Clay	Monitoring
GW109733	1100 m northeast	1.4	Topsoil and Clay	Monitoring
GW109821	700 m southeast	14.5	Fill and Shale	Monitoring
GW109822	900 m southeast	3.0	Fill, Sand and Clay	Monitoring
GW109823	900 m southeast	12.5	Fill, Sand, Clay and Shale	Monitoring
GW109824	700 m southeast	4.51	Fill, Shale and Sandstone	Monitoring
GW109825	700 m southeast	14.9	Fill and Shale	Monitoring

8. POTENTIAL CONTAMINANTS

Previous uses of the northern section of the site are mostly industrial related and include film processing, tanning, boot making and wool scouring. The potential contaminants associated with the tanning and the related trades listed in the NSW *Planning Guidelines: SEEP 55 – Remediation of Land, 1998* are as follows:

- Heavy metals (chromium, manganese, aluminium);
- Ammonium sulfate;
- Ammonia;
- Ammonium nitrate;
- Arsenic Phenolics;
- Formaldehyde;
- Sulfide; and
- Tannic acid.

The potential contaminants associated with the wool scouring listed in the Department of Environment, Government of Western Australia *Potentially Contaminating Activities, Industries and Land Uses*, October 2004 guidelines are as follows:

- Nutrients (e.g. phosphorous, nitrogen);
- Total dissolved solids (TDS);
- Oil and grease;
- Detergents;
- Pesticides; and
- Bleaching agent (e.g. hydrogen peroxide).

Wool carbonising includes the application of diluted sulfuric acid (5% H₂SO₄) to the scoured wool.

The potential contaminants associated with the film and film processing industry listed in the Department of Environment, Government of Western Australia *Potentially Contaminating Activities, Industries and Land Uses*, October 2004 guidelines are as follows:

- Photography Hydroquinone;
- Sodium carbonate;
- Sodium sulfite;
- Potassium bromide;
- Monomethyl para-aminophenol sulfate;
- Ferricyanide;
- Chromium;
- Silver;
- Thiocyanate;
- Ammonium compounds;
- Sulfur compounds;
- Phosphate;
- Phenylene diamine;
- Ethyl alcohol; and
- Thiosulfates, formaldehyde.

It is understood that a dry cleaning facility is situated at the central south section of Marrickville Metro Shopping Centre. The potential contaminants associated with dry cleaners listed in the NSW *Planning Guidelines: SEEP 55 – Remediation of Land, 1998* are as follows:

- Trichlorethylene and 1,1,1- trichloroethane;
- Carbon tetrachloride; and
- Perchlorethylene.

A substation is present at the south-western corner of the northern section of the site adjacent to the shopping centre. According to the title deeds, the subject substation was most probably built in 1927. However, a review of the development application record indicates that a new sub-station was built in 2000. Sub-stations were commonly associated with polychlorinated biphenyl (PCB) impacts if constructed prior to 1980. It is therefore considered that PCB is not present at the existing sub-station; however, residual PCB may potentially be present should an older sub-station have been present located at the site.

An auto motor tyre and repair centre is operating in the north-eastern part of the shopping centre. The potential contaminants associated with fuel storage listed in the NSW *Planning Guidelines: SEEP 55 – Remediation of Land, 1998* and the EPA's publication *Guidelines for the Assessment of Service Stations* (1994) are as follows:

- Benzene, Toluene, Ethylbenzene and Xylene (BTEX);
- Total Petroleum Hydrocarbons (TPH);
- Lead;
- Polycyclic Aromatic Hydrocarbons (PAHs); and
- Phenols.

Previous uses of the southern section of the site include residential, commercial and industrial (including possible margarine and cordial production and a saw mill). The potential contaminants associated with saw mills listed in the Department of Environment, Government of Western Australia Potentially Contaminating Activities, Industries and Land Uses, October, 2004, guidelines are as follows:

- Heavy metals (arsenic, copper, chromium);
- Polycyclic aromatic hydrocarbons;
- Organochlorine pesticides; and
- Ammonia.

The potential contaminants associated with margarine and cordial production are likely associated with the storage of hydraulic oils and fuel.

- Benzene, Toluene, Ethylbenzene and Xylene (BTEX);
- Total Petroleum Hydrocarbons (TPH);
- Lead;

- Polycyclic Aromatic Hydrocarbons (PAHs); and
- Phenols.

As discussed in Section 6.6 of this report three former USTs were decommissioned and removed from the southern section of the site. The tank pits and the backfill materials were validated with all results below the site assessment criteria. However, potential for contamination may exist from spills and leaks associated with the use of the UST possibly present at the southern section of the site.

Further potential for contamination may exist from imported fill material that may have been used for levelling purposes on site. Fill from unknown sources has the potential to contain a wide variety of contaminants including asbestos-based materials such as fragments of asbestos-cement sheeting.

Based on the above information, a broad range of organic and inorganic compounds were included in the analytical suite for soil, as follows:

- Heavy metals (As, Cd, Cr³⁺, Cr⁶⁺, Cu, Pb, Hg, Ni, Zn, Al, Mn);
- Polycyclic Aromatic Hydrocarbons (PAH);
- Total petroleum hydrocarbons (TPH);
- Monocyclic Aromatic Hydrocarbons (Benzene, Toluene, Ethylbenzene and Xylene – BTEX);
- Polychlorinated Biphenyls (PCB);
- Phenols;
- Organochlorine Pesticides (OCP);
- Volatile Organic Compounds (VOC); and
- Asbestos.

The following suite of chemical contaminants for groundwater was assessed:

- Heavy metals;
- PAH;
- TPH;
- BTEX;
- Phenols;

- VOC; and
- pH, hardness.

9. DISCUSSIONS, CONCLUSIONS AND RECOMMENDATIONS

The scope of work for the current assessment comprised a site walkover inspection, review of site history and groundwater bore search.

A review of historical information indicates that the northern portion of the section was a tanning factory in the late 1800s and subsequently re-established for wool manufacture (wool scour) before the shopping centre was constructed in late 1980s. The southern portion of the site has been used for a variety of commercial / industrial purposes since the early 1930s.

A review of the Council's development application records and site walkover reveals that some potentially contaminating industries are operating at the site, including the auto repair service provided by Kmart Oil in the eastern portion of the site and the dry cleaner located near to the Smidmore Street entrance. A film and film processing outlet also previously operated at the shopping centre and, therefore, solvents and other chemicals might have been stored at the site.

Based on findings from a previous DP validation assessment, it is known that there were three USTs present at the southern portion of the site. A disused fuel point was noted on the footpath of Murray Street during site inspection which indicates that a fourth UST may be present in the eastern portion of the warehouse. An electricity sub-station was also noted at the corner of Smidmore Street and Murray Street which was constructed in 2006. This part of the site was previously owned by Energy Australia and, therefore, it may have been used as electricity sub-station site prior to 2006. Residual PCBs may potentially present in this part of the site.

The main sources of potential contamination at the site are likely to be associated with the former and current contaminating activities identified in this assessment. In particular, the presence of the dry cleaners, the disused fuel point located in the footpath of Murray Street

and the auto and tyre repair in the eastern portion of the shopping centre complex and the tannery and wool scouring in the northern portion.

It is recommended that an intrusive investigation be carried out to verify the status of the site with respect to contamination. Acid sulphate soil testing should also be included as part of the investigation. Furthermore, groundwater monitoring wells should be installed across the site to obtain an understanding of the hydrogeological conditions and groundwater quality at the site which has the potential to have been impacted by the current and former uses of the site.

10. LIMITATIONS OF THIS REPORT

Douglas Partners (DP) has prepared this report (or services) for this project at 34 Victoria Road and 13-55 Edinburgh Road, Marrickville NSW in accordance with DP's proposal dated 19 February 2010 and acceptance received from Mr Derrick Burrows of Bovis Lend Lease on behalf of AMPCI dated 25 February 2010. This report is provided for the exclusive use of the Bovis Lend Lease and AMPCI for the specific project and purpose as described in the report. It should not be used by or relied upon for other projects or purposes on the same or other site or by a third party.

DP cannot provide unqualified warranties with regards to site contamination nor does DP assume any liability for site conditions not observed or accessible during the time of the investigations. In addition, site characteristics may change over time due to activities such as spillages of contaminating substances. These changes may occur subsequent to DP's investigations and assessment.

This report must be read in conjunction with the attached "Notes Relating to This Report" and any other attached explanatory notes and should be kept in its entirety without separation of individual pages or sections. DP cannot be held responsible for interpretations or conclusions from review by others of this report or test data, which are not otherwise supported by an expressed statement, interpretation, outcome or conclusion stated in this report. In preparing this report DP has necessarily relied upon information provided by the client and/or their agents.

In accordance with the requirements of section 149 of the Environmental Planning and Assessment Act 1979 (as amended), the following prescribed matters relate to the land at the date of this certificate.

ITEM 1**Names of relevant planning instruments and DCPs**

- (1) The name of each environmental planning instrument that applies to the carrying out of development on the land.

1. The following environmental planning instruments apply to the land:

- Marrickville Local Environmental Plan 2001 (as amended)
- S.E.P.P. No. 1 Development Standards
- S.E.P.P. No. 4 Development Without Consent and Miscellaneous Complying Development
- S.E.P.P. No. 6 Number of Storeys in a Building
- S.E.P.P. No. 19 Bushland in Urban Areas
- S.E.P.P. No. 21 Caravan Parks
- S.E.P.P. No. 22 Shops and Commercial Premises
- S.E.P.P. No. 30 Intensive Agricultures
- S.E.P.P. No. 32 Urban Consolidation (Redevelopment of Urban Land)
- S.E.P.P. No. 33 Hazardous and Offensive Development
- S.E.P.P. No. 50 Canal Estates
- S.E.P.P. No. 53 Metropolitan Residential Development
- S.E.P.P. No. 55 Remediation of Land

PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL PLANNING & ASSESSMENT ACT, 1979.

Any enquiries regarding these State and Regional Planning Policies should be directed to the Department of Planning on: 1300 305 695 or 02 9228 6333. Information can also be obtained from the Department's website at <http://www.planning.nsw.gov.au>

- (1) The name of each proposed environmental planning instrument that will apply to the carrying out of development on the land and that is or has been the subject of community consultation or on public exhibition under the Act (unless the Director-General has notified the council that the making of the proposed instrument has been deferred indefinitely or has not been approved).

2. The following proposed environmental planning instruments apply to the land:

- None

Any enquiries regarding these State and Regional Planning Policies should be directed to the Department of Planning on: 1300 305 695 or 02 9228 6333. Information can also be obtained from the Department's website at <http://www.planning.nsw.gov.au>

- (2) The name of each development control plan that applies to the carrying out of development on the land.

3. The following development control plans (D.C.P's) apply to the land:

- D.C.P. No.19 Parking Strategy
- D.C.P. No.27 Waste Management
- D.C.P. No.29 Contaminated Land Policy and Development Controls
- D.C.P. No.31 Equity of Access and Mobility
- D.C.P. No.32 Energy Smart Water Wise
- D.C.P. No.35 Urban Housing
- D.C.P. No.36 Complying and Exempt Development

ITEM 2

Zoning and land use under relevant LEPs

For each environmental planning instrument or proposed instrument referred to in clause 1 (other than a SEPP or proposed SEPP) that includes the land in any zone (however described):

- (a) the identity of the zone, whether by reference to a name (such as "Residential Zone" or "Heritage Area" or by reference to a number (such as "Zone No 2(a)"),
- (b) the purposes for which the instrument provides that development may be carried out within the zone without the need for development consent,
- (c) the purposes for which the instrument provides that development may not be carried out within the zone except with development consent,
- (d) the purposes for which the instrument provides that development is prohibited within the zone,
- (e) whether any development standards applying to the land fix minimum land dimensions for the erection of a dwelling-house on the land and, if so, the minimum land dimensions so fixed,
- (f) whether the land includes or comprises critical habitat,
- (g) whether the land is in a conservation area (however described),
- (h) whether an item of environmental heritage (however described) is situated on the land,

Item 2 (a, b, c & d)

MARRICKVILLE LOCAL ENVIRONMENTAL PLAN 2001 (as amended)

General Industrial 4(A)

Attachment 1 is a copy of the relevant zone table (or tables) from Marrickville Local Environmental Plan 2001 (as amended). The zone table describes the objectives of the zone, what development does not require development consent, what development does require

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 4

development consent, and what development is prohibited. Additional requirements and standards for development are specified in Marrickville Local Environmental Plan 2001 (as amended).

Item 2 (e)

There are no minimum land dimensions for the erection of a dwelling house on the land. All applications for the erection of a dwelling house will be assessed in accordance with the Environmental Planning and Assessment Act, 1979.

Item 2 (f)

The land DOES NOT comprise critical habitat.

Item 2 (g)

The Land IS NOT within a heritage conservation area referred to in Schedule 5 of Marrickville Local Environmental Plan 2001. Also, the Land IS NOT within an area referred to in clause 55 of Marrickville Local Environmental Plan 2001 (as amended) and shown on the map marked "Marrickville Local Environmental Plan No 111 as (Amendment No 1)".

Item 2 (h)

The land DOES NOT comprise a heritage item under Marrickville Local Environmental Plan 2001 (as amended).

ITEM 3

Complying development

- | |
|---|
| <p>(1) Whether or not the land is land on which complying development may be carried out under the codes for complying development in <i>State Environmental Planning Policy (Exempt and Complying Development Codes) 2008</i>.</p> <p>(2) If complying development may not be carried out on that land because of one or more of the requirements under Clause 1.19 of that Policy, why it may not be carried out.</p> |
|---|

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392
Page No: 5

General Housing Code

No Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may not be carried out on this land.

The land is excluded land identified on an Acid Sulfate Soils Map as being Class 2.

Housing Internal Alterations Code

Yes, Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may be carried out on this land subject to an assessment of compliance with the requirements of the SEPP.

General Commercial and Industrial Code

Yes, Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may be carried out on this land subject to an assessment of compliance with the requirements of the SEPP.

ITEM 4

Coastal protection

Whether or not the land is affected by the operation of section 38 or 39 of the Coastal Protection Act 1979, but only to the extent that the council has been so notified by the Department of Services, Technology and Administration.

No.

ITEM 5

Mine subsidence

Whether or not the land is proclaimed to be a mine subsidence district within the meaning of section 15 of the Mine Subsidence Compensation Act 1961.

No.

ITEM 6

Road widening and road realignment

Whether or not the land is affected by any road widening or road realignment under:

- (a) Division 2 of Part 3 of the Roads Act 1993, or
- (b) any environmental planning instrument, or
- (c) any resolution of the council.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 6

Road widening/realignment: The land IS NOT affected by any road widening or road realignment under:

- (i) Part 3 Division 2 of the Roads Act 1993
- (ii) any environmental planning instrument; or
- (iii) any resolution of the Council.

ITEM 7

Council and other public authority policies on hazard risk restrictions

Whether or not the land is affected by a policy:

- (a) adopted by the council, or
- (b) adopted by any other public authority and notified to the council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the council,

that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

- Council has adopted by resolution and in accordance with S.72 of the Environmental Planning & Assessment Act, 1979 a development control plan incorporating Council's policy on contaminated land. The Plan has been prepared substantially in accordance with State Environmental Planning Policy No. 55, and the Contaminated Land Planning Guidelines. This policy may affect development of land:
 - (a) which is affected by contamination;
 - (b) which has been used for certain purposes;
 - (c) in respect of which there is not sufficient information about contamination;
 - (d) which is proposed to be used for certain purposes;
 - (e) in other circumstances contained in the development control plan and policy;and in some cases may restrict the development of land.
- The land is identified as being subject to acid sulfate soil risk under clause 57 of Marrickville Local Environmental Plan 2001. Consent must not be granted for development on the land involving works at or below the ground water level or that could lower the ground water level without consideration of the presence or absence of acid sulfate soils.
- Council has not by resolution (aside from the matters raised in the above item(s)) adopted a policy to restrict the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392
Page No: 7

- Council has received no notification of the type described in item 7(h) from a public authority of a policy adopted by that authority that restricts the development of the land because of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).

ITEM 7A

Flood related development controls information

(1) Whether or not development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.

No.

(2) Whether or not development on that land or part of the land for any other purpose is subject to flood related development controls.

No.

(3) Words and expressions in this clause have the same meaning as in the instrument set out in the Schedule to the *Standard Instrument (Local Environmental Plan) Order 2006*.

ITEM 8

Land reserved for acquisition

Whether or not any environmental planning instrument or proposed environmental planning instrument referred to in clause 1 makes provision in relation to the acquisition of the land by a public authority, as referred to in section 27 of the Act.

Refer to Zoning (ITEM 2).

Land reserved for acquisition: The land IS NOT reserved, in part or whole, for acquisition by a public authority, as referred to in section 27 of the Act, under:

- (i) any environmental planning instrument
- (ii) deemed environmental planning instrument; or
- (iii) draft environmental planning instrument

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392
Page No: 8

ITEM 9

Contributions plans

The name of each contributions plan applying to the land.

Marrickville Section 94 Contributions Plan 2004.

ITEM 10

This item has been repealed

ITEM 11

Bush fire prone land

If any of the land is bush fire prone land (as defined in the Act), a statement that all or, as the case may be, some of the land is bush fire prone land.

If none of the land is bush fire prone land, a statement to that effect.

The land is not bush fire prone land.

ITEM 12

Property vegetation plans

If the land is land to which a property vegetation plan under the *Native Vegetation Act 2003* applies, a statement to that effect (but only if the council has been notified of the existence of the plan by the person or body that approved the plan under that Act).

No.

ITEM 13

Orders under *Trees (Disputes Between Neighbours) Act 2006*

Whether an order has been made under the *Trees (Disputes Between Neighbours) Act 2006* to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

No.

ITEM 14

Directions under Part 3A

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 9

If there is a direction by the Minister in force under section 75P (2) (c1) of the Act that a provision of an environmental planning instrument prohibiting or restricting the carrying out of a project or a stage of a project on the land under Part 4 of the Act does not have effect, a statement to that effect identifying the provision that does not have effect.

No.

ITEM 15

Site compatibility certificates and conditions for seniors housing

If the land is land to which *State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004* applies:

- (a) a statement of whether there is a current site compatibility certificate (seniors housing), of which the council is aware, in respect of proposed development on the land and, if there is a certificate, the statement is to include:
 - (i) the period for which the certificate is current, and
 - (ii) that a copy may be obtained from the head office of the Department of Planning, and
- (b) a statement setting out any terms of a kind referred to in clause 18 (2) of that Policy that have been imposed as a condition of consent to a development application granted after 11 October 2007 in respect of the land,

Item 15(a)

There is not a current site compatibility certificate (seniors housing) on the land.

Item 15(b)

There are no applicable terms of a kind referred to in clause 18(2) of that Policy that have been imposed as a condition of consent to a development application granted after 11 October 2007 in respect of the land.

ITEM 16

Site compatibility certificate for infrastructure

A statement of whether there is a valid site compatibility certificate (infrastructure), of which the council is aware, in respect of proposed development on the land and, if there is a certificate, the statement is to include:

- (a) the period for which the certificate is valid, and
- (b) that a copy may be obtained from the head office of the Department of Planning.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 10

There is not a current site compatibility certificate (affordable rental housing) on the land.

ITEM 17

Site compatibility certificate and conditions affecting affordable rental housing

- (1) A statement of whether there is a current site compatibility certificate (affordable rental housing), of which the council is aware, in respect of proposed development on the land and, if there is a certificate, the statement is to include:
 - (a) the period for which the certificate is current, and
 - (b) that a copy may be obtained from the head office of the Department of Planning.
- (2) A statement setting out any terms of a kind referred to in clause 17(1) or 38(1) of *State Environmental Planning Policy (Affordable Rental Housing) 2009* that have been imposed as a condition of consent to a development application in respect of the land.

Item 17(1)

There is not a current site compatibility certificate (affordable rental housing) on the land.

Item 17(2)

There are no applicable terms of a kind referred to in clause 17(1) or 38(1) of State Environmental Planning Policy (Affordable Rental Housing) 2009 that have been imposed as a condition of consent to a development application in respect of the land.

OTHER ITEMS (i)

Section 23 exemption or Section 24 authorisation

Whether an exemption under Section 23 or an authorisation under section 24 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* No 1 has been issued by the Co-ordinator General in relation to the land.

An exemption under Section 23 or an authorisation under Section 24 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 No 1 has not been issued by the Co-ordinator General in relation to the land.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 11

(OTHER ITEMS (ii))

Matters arising under the Contaminated Land Management Act 1997

Section 59(2) of the *Contaminated Land Management Act 1997* prescribes the following additional matters that are to be specified in a planning certificate:

- (a) that the land to which the certificate relates is significantly contaminated land within the meaning of that Act - if the land (or part of the land) is significantly contaminated land at the date when the certificate is issued,

No.

- (b) that the land to which the certificate relates is subject to a management order within the meaning of the Act - if it is subject to such an order at the date when the certificate is issued,

No.

- (c) that the land to which the certificate relates is the subject of an approved voluntary management proposal within the meaning of that Act - if it is the subject of such an approved proposal at the date when the certificate is issued,

No.

- (d) that the land to which the certificate relates is subject to an ongoing maintenance order within the meaning of the Act - if it is subject to such an order at the date when the certificate is issued,

No.

- (e) that the land to which the certificate relates is the subject of a site audit statement within the meaning of the Act - if a copy of such a statement has been provided at any time to the local authority issuing the certificate.

No.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392

Page No: 12

**ADDITIONAL INFORMATION PURSUANT TO S.149(5) OF THE ENVIRONMENTAL
PLANNING AND ASSESSMENT ACT, 1979.**

a) Items listed under the NSW Heritage Act 1977:

The property IS NOT listed under the NSW Heritage Act 1977.

b) Proposed Arterial Road /Arterial Road Widening :

The property IS NOT affected by any Proposed Arterial Road / Arterial Road Widening.

c) Australian Noise Exposure Forecast ANEF 2029/09:

Some land within the Marrickville Local Government area is subject to aircraft noise associated with Sydney Airport. Council has maps which indicate the land that is subject to noise exposure from aircraft and which contain information as to future levels of noise and related matters. Development within these areas may require noise and acoustic attenuation treatment. If you consider that the subject land is, or is likely to be affected by aircraft noise, or if you wish to ascertain whether the subject land is, or is likely to be affected by aircraft noise, please contact the Development and Environmental Services Division of Council on 9335 2222.

For further information concerning the Australian Noise Exposure Forecast (ANEF), as it relates to Sydney Airport and the Marrickville Local Government area please contact Airservices Australia, Customer and Community Relations, P.O. Box 211, Mascot, NSW 1460 or telephone 1300 302 240.

d) Contaminated Land:

Marrickville Development Control Plan (DCP) No. 29 Contaminated Land Policy and Development Controls lists sources of information for investigating potential land contamination, including information that the Council may possess. Persons should make their own enquiries in accordance with the procedures specified in Marrickville DCP No. 29. The Council can provide access to information in Council's possession in relation to the land use history for a particular parcel of land.

e) Local flooding arising from surcharge of local drainage systems

Some land within the Marrickville Council local government area has been or may be likely to be affected by local flooding arising from the surcharge of local drainage systems. Interested persons should make and rely upon their own enquiries as to the likelihood and extent of any flooding affecting this property. Council may place restrictions on the minimum floor levels of new building works where it is considered that the 100 year flood level so requires. New building works may be required to be constructed from flood-compatible materials. Information is available from Council's Engineering Services Section on ph. 9335 2225.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000392
Page No: (1)

NOTE: The information contained in this certificate needs to be read in conjunction with the provisions of the Environmental Planning and Assessment Act 1979 and Environmental Planning and Assessment Regulation 2000.

Information provided under S.149 (2) is in accordance with the matters prescribed under Schedule 4 of the Environmental Planning and Assessment Regulation 2000.

When information pursuant to Section 149 (5) is requested, the Council is under no obligation to furnish any particular information pursuant to that Section. The absence of any reference to any matters affecting the land shall not imply that the land is not affected by any matter not referred to in this Certificate.

Council draws your attention to Section 149 (6) which states that a Council shall not incur any liability in respect of any advice provided in good faith pursuant to subsection (5).

Please contact the Planning Services Section for further information about any instruments or affectations referred to in the Certificate.

J Clark

**JUDY CLARK

15 General Industrial 4 (A) zone

- (1) How is the zone shown on the map?

Coloured purple.

- (2) What are the objectives of the zone?

The objectives of this zone are:

- (a) to identify areas suitable for industrial and warehousing activities, and
- (b) to permit a range of support and ancillary uses.

- (3) What does not require development consent?

Development for the purpose of:

- public utility undertakings

Exempt development

- (4) What requires development consent?

Development not included in subclause (3) or (5).

- (5) What is prohibited?

Development for the purpose of:

- airline terminals
- amusement centres
- bed and breakfast accommodation
- boarding houses
- bulky goods salesrooms or showrooms
- caravan parks
- commercial premises (other than banks and timber yards)
- dwellings and multi-unit housing that are not used in conjunction with a permissible use
- dual occupancies
- dwelling houses
- hazardous industries
- hazardous storage establishments
- helipads
- heliports
- hospitals
- institutions
- mines
- offensive industries
- offensive storage establishments
- professional consulting rooms
- restricted premises

ITEM 2

Zoning and land use under relevant LEPs

For each environmental planning instrument or proposed instrument referred to in clause 1 (other than a SLPP or proposed SLPP) that includes the land in any zone (however described):

- (a) the identity of the zone, whether by reference to a name (such as "Residential Zone" or "Heritage Area" or by reference to a number (such as "Zone No 2(a)"),
- (b) the purposes for which the instrument provides that development may be carried out within the zone without the need for development consent,
- (c) the purposes for which the instrument provides that development may not be carried out within the zone except with development consent,
- (d) the purposes for which the instrument provides that development is prohibited within the zone,
- (e) whether any development standards applying to the land fix minimum land dimensions for the erection of a dwelling-house on the land and, if so, the minimum land dimensions so fixed,
- (f) whether the land includes or comprises critical habitat,
- (g) whether the land is in a conservation area (however described),
- (h) whether an item of environmental heritage (however described) is situated on the land.

Item 2 (a, b, c & d)

MARRICKVILLE LOCAL ENVIRONMENTAL PLAN 2001 (as amended)

General Business 3A

Attachment 1 is a copy of the relevant zone table (or tables) from Marrickville Local Environmental Plan 2001 (as amended). The zone table describes the objectives of the zone.

PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL PLANNING & ASSESSMENT ACT, 1979.

Cert. No: PC201000393

Page No: 4

what development does not require development consent, what development does require development consent, and what development is prohibited. Additional requirements and standards for development are specified in Marrickville Local Environmental Plan 2001 (as amended).

It should also be noted that the subject property is affected by Clause 45 of Marrickville LEP 2001, which relates to Schedule 2 of the LEP, and the accompanying map marked 'Marrickville Local Environmental Plan, 2001 – Additional Development'. Properties identified by these provisions, have been the subject of previous site specific rezonings.

Item 2 (e)

The land has no minimum land dimensions for the erection of a dwelling house on the land. All applications for the erection of a dwelling house will be assessed in accordance with the Environmental Planning and Assessment Act, 1979.

Item 2 (f)

The land DOES NOT comprise critical habitat.

Item 2 (g)

The Land IS NOT within a heritage conservation area referred to in Schedule 5 of Marrickville Local Environmental Plan 2001. Also, the Land IS NOT within an area referred to in clause 55 of Marrickville Local Environmental Plan 2001 (as amended) and shown on the map marked "Marrickville Local Environmental Plan No 111 as (Amendment No 1)".

Item 2 (h)

The land DOES comprise a heritage item under Marrickville Local Environmental Plan 2001 (as amended).

ITEM 3

Complying development

(1) Whether or not the land is land on which complying development may be carried out under the codes for complying development in *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 5

(2) If complying development may not be carried out on that land because of one or more of the requirements under Clause 1.19 of that Policy, why it may not be carried out.

General Housing Code

No. Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may not be carried out on this land.

The land is excluded land identified on an Acid Sulfate Soils Map as being Class 2.

The land is excluded land identified that comprises a Local Heritage Item.

Housing Internal Alterations Code

No. Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may not be carried out on this land.

The land is excluded land identified that comprises a Local Heritage Item.

General Commercial and Industrial Code

No. Complying Development under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 may not be carried out on this land.

The land is excluded land identified that comprises a Local Heritage Item.

ITEM 4

Coastal protection

Whether or not the land is affected by the operation of section 38 or 39 of the *Coastal Protection Act 1972*, but only to the extent that the council has been so notified by the Department of Services, Technology and Administration.

No.

ITEM 5

Mine subsidence

Whether or not the land is proclaimed to be a mine subsidence district within the meaning of section 15 of the *Mine Subsidence Compensation Act 1961*.

No.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 6

ITEM 6

Road widening and road realignment

Whether or not the land is affected by any road widening or road realignment under:

- (i) Division 2 of Part 3 of the Roads Act 1993, or
- (b) any environmental planning instrument, or
- (c) any resolution of the council,

Road widening/realignement: The land IS NOT affected by any road widening or road realignment under:

- (i) Part 3 Division 2 of the Roads Act 1993
- (ii) any environmental planning instrument; or
- (iii) any resolution of the Council,

ITEM 7

Council and other public authority policies on hazard risk restrictions

Whether or not the land is affected by a policy:

- (a) adopted by the council, or
- (b) adopted by any other public authority and notified to the council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the council;

that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

- * Council has adopted by resolution and in accordance with S.72 of the Environmental Planning & Assessment Act, 1979 a development control plan incorporating Council's policy on contaminated land. The Plan has been prepared substantially in accordance with State Environmental Planning Policy No. 55, and the Contaminated Land Planning Guidelines. This policy may affect development of land:

- (a) which is affected by contamination;
- (b) which has been used for certain purposes;
- (c) in respect of which there is not sufficient information about contamination;
- (d) which is proposed to be used for certain purposes;
- (e) in other circumstances contained in the development control plan and policy;

and in some cases may restrict the development of land.

- * The land is identified as being subject to acid sulfate soil risk under clause 57 of Marrickville Local Environmental Plan 2001. Consent must not be granted for development on the land

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 7

involving works at or below the ground water level or that could lower the ground water level without consideration of the presence or absence of acid sulfate soils.

- Council has not by resolution (aside from the matters raised in the above item(s)) adopted a policy to restrict the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).
- Council has received no notification of the type described in item 7(b) from a public authority of a policy adopted by that authority that restricts the development of the land because of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).

ITEM 7A

Flood related development controls information

(1) Whether or not development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.

No.

(2) Whether or not development on that land or part of the land for any other purpose is subject to flood related development controls.

No.

(3) Words and expressions in this clause have the same meaning as in the instrument set out in the Schedule to the *Standard Instrument (Local Environmental Plan) Order 2006*.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 8

ITEM 8

Land reserved for acquisition

Whether or not any environmental planning instrument or proposed environmental planning instrument referred to in clause 1 makes provision in relation to the acquisition of the land by a public authority, as referred to in section 27 of the Act.

Refer to Zoning (ITEM 2).

Land reserved for acquisition: The land IS NOT reserved, in part or whole, for acquisition by a public authority, as referred to in section 27 of the Act, under:

- (i) any environmental planning instrument
- (ii) deemed environmental planning instrument; or
- (iii) draft environmental planning instrument

ITEM 9

Contributions plans

The name of each contributions plan applying to the land.

Marrickville Section 94 Contributions Plan 2004.

ITEM 10

This item has been repealed

ITEM 11

Bush fire prone land

If any of the land is bush fire prone land (as defined in the Act), a statement that all or, as the case may be, some of the land is bush fire prone land.

If none of the land is bush fire prone land, a statement to that effect.

The land is not bush fire prone land.

ITEM 12

Property vegetation plans

If the land is land to which a property vegetation plan under the *Native Vegetation Act 2003* applies, a statement to that effect (but only if the council has been notified of the existence of the plan by the person or body that approved the plan under that Act).

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 9

No.

ITEM 13

Orders under *Trees (Disputes Between Neighbours) Act 2006*

Whether an order has been made under the *Trees (Disputes Between Neighbours) Act 2006* to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

No.

ITEM 14

Directions under Part 3A

If there is a direction by the Minister in force under section 75P (2) (e1) of the Act that a provision of an environmental planning instrument prohibiting or restricting the carrying out of a project or a stage of a project on the land under Part 4 of the Act does not have effect, a statement to that effect identifying the provision that does not have effect.

No.

ITEM 15

Site compatibility certificates and conditions for seniors housing

If the land to which *State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004* applies:

- (a) a statement of whether there is a current site compatibility certificate (seniors housing), of which the council is aware, in respect of proposed development on the land and, if there is no certificate, the statement is to include:
 - (i) the period for which the certificate is current, and
 - (ii) that a copy may be obtained from the head office of the Department of Planning, and
- (b) a statement setting out any terms of a kind referred to in clause 18 (2) of that Policy that have been imposed as a condition of consent to a development application granted after 11 October 2007 in respect of the land.

Item 15(a)

There is not a current site compatibility certificate (seniors housing) on the land.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393
Page No: 10

Item 15(b)

There are no applicable terms of a kind referred to in clause 18(2) of that Policy that have been imposed as a condition of consent to a development application granted after 11 October 2007 in respect of the land.

ITEM 16

Site compatibility certificate for Infrastructure

A statement of whether there is a valid site compatibility certificate (infrastructure), of which the council is aware, in respect of proposed development on the land and, if there is a certificate, the statement is to include:

- (a) the period for which the certificate is valid, and
- (b) that a copy may be obtained from the head office of the Department of Planning.

There is not a current site compatibility certificate (infrastructure) on the land.

ITEM 17

Site compatibility certificate and conditions affecting affordable rental housing

- (1) A statement of whether there is a current site compatibility certificate (affordable rental housing), of which the council is aware, in respect of proposed development on the land and, if there is a certificate, the statement is to include:
 - (a) the period for which the certificate is current, and
 - (b) that a copy may be obtained from the head office of the Department of Planning.
- (2) A statement setting out any terms of a kind referred to in clause 17 (1) or 38 (1) of State Environmental Planning Policy (Affordable Rental Housing) 2009 that have been imposed as a condition of consent to a development application in respect of the land.

Item 17(1)

There is not a current site compatibility certificate (affordable rental housing) on the land.

Item 17(2)

There are no applicable terms of a kind referred to in clause 17(1) or 38(1) of State Environmental Planning Policy (Affordable Rental Housing) 2009 that have been imposed as a condition of consent to a development application in respect of the land.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 11

OTHER ITEMS (i)

Section 23 exemption or Section 24 authorisation

Whether an exemption under Section 23 or an authorisation under section 24 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 No 1 has been issued by the Co-ordinator General in relation to the land.

An exemption under Section 23 or an authorisation under Section 24 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 No 1 has not been issued by the Co-ordinator General in relation to the land.

OTHER ITEMS (ii)

Matters arising under the Contaminated Land Management Act 1997

Section 59(2) of the Contaminated Land Management Act 1997 prescribes the following additional matters that are to be specified in a planning certificate:

- (a) that the land to which the certificate relates is significantly contaminated land within the meaning of that Act - if the land (or part of the land) is significantly contaminated land at the date when the certificate is issued,

No.

- (b) that the land to which the certificate relates is subject to a management order within the meaning of the Act - if it is subject to such an order at the date when the certificate is issued,

No.

- (c) that the land to which the certificate relates is the subject of an approved voluntary management proposal within the meaning of that Act - if it is the subject of such an approved proposal at the date when the certificate is issued,

No.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 12

- (d) that the land to which the certificate relates is subject to an ongoing maintenance order within the meaning of the Act - if it is subject to such an order at the date when the certificate is issued.

No.

- (e) that the land to which the certificate relates is the subject of a site audit statement within the meaning of the Act - if a copy of such a statement has been provided at any time to the local authority issuing the certificate.

No.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 13

**ADDITIONAL INFORMATION PURSUANT TO S.149(5) OF THE ENVIRONMENTAL
PLANNING AND ASSESSMENT ACT, 1979.**

- a) Items listed under the NSW Heritage Act 1977:
The property IS NOT listed under the NSW Heritage Act 1977.

- b) Proposed Arterial Road /Arterial Road Widening :
The property IS NOT affected by any Proposed Arterial Road / Arterial Road Widening.

- c) Australian Noise Exposure Forecast ANEF 2029/09:
Some land within the Marrickville Local Government area is subject to aircraft noise associated with Sydney Airport. Council has maps which indicate the land that is subject to noise exposure from aircraft and which contain information as to future levels of noise and related matters. Development within these areas may require noise and acoustic attenuation treatment. If you consider that the subject land is, or is likely to be affected by aircraft noise, or if you wish to ascertain whether the subject land is, or is likely to be affected by aircraft noise, please contact the Development and Environmental Services Division of Council on 9335 2222.

For further information concerning the Australian Noise Exposure Forecast (ANEF), as it relates to Sydney Airport and the Marrickville Local Government area please contact Airservices Australia, Customer and Community Relations, P.O. Box 211, Mascot, NSW 1460 or telephone 1300 302 240.

- d) Contaminated Land:
Marrickville Development Control Plan (DCP) No. 29 Contaminated Land Policy and Development Controls lists sources of information for investigating potential land contamination, including information that the Council may possess. Persons should make their own enquiries in accordance with the procedures specified in Marrickville DCP No. 29. The Council can provide access to information in Council's possession in relation to the land use history for a particular parcel of land.

- e) Local flooding arising from surcharge of local drainage systems
Some land within the Marrickville Council local government area has been or may be likely to be affected by local flooding arising from the surcharge of local drainage systems. Interested persons should make and rely upon their own enquiries as to the likelihood and extent of any flooding affecting this property. Council may place restrictions on the minimum floor levels of new building works where it is considered that the 100 year flood level so requires. New building works may be required to be constructed from flood-compatible materials. Information is available from Council's Engineering Services Section on ph. 9335 2225.

**PLANNING CERTIFICATE UNDER SECTION 149 OF THE AMENDED ENVIRONMENTAL
PLANNING & ASSESSMENT ACT, 1979.**

Cert. No: PC201000393

Page No: 14

NOTE: The information contained in this certificate needs to be read in conjunction with the provisions of the Environmental Planning and Assessment Act 1979 and Environmental Planning and Assessment Regulation 2000.

Information provided under S.149 (2) is in accordance with the matters prescribed under Schedule 4 of the Environmental Planning and Assessment Regulation 2000.

When information pursuant to Section 149 (5) is requested, the Council is under no obligation to furnish any particular information pursuant to that Section. The absence of any reference to any matters affecting the land shall not imply that the land is not affected by any matter not referred to in this Certificate.

Council draws your attention to Section 149 (6) which states that a Council shall not incur any liability in respect of any advice provided in good faith pursuant to subsection (5).

Please contact the Planning Services Section for further information about any instruments or affectations referred to in the Certificate.

13 General Business 3 (A) zone

- (1) How is the zone shown on the map?

Coloured blue.

- (2) What are the objectives of the zone?

The objectives of this zone are:

- (a) to identify areas suitable for business and commercial activities, and
- (b) to permit a variety of ancillary and complementary land uses, and
- (c) to facilitate residential development in conjunction with other permissible uses in the zone.

- (3) What does not require development consent?

Development for the purpose of:

- public utility undertakings
- Exempt development

- (4) What requires development consent?

Development not included in subclause (3) or (5).

- (5) What is prohibited?

Development for the purpose of:

- airfield terminals
- amusement centres
- bulk stores
- caravan parks
- car repair stations
- dual occupancies
- dwellings, multi unit housing, residential flat buildings, serviced apartments that are not attached to a permissible use
- hazardous storage establishments
- helipads
- heliports
- industries
- institutions
- junk yards
- liquid fuel depots
- mines
- offensive storage establishments
- panel beating workshops
- timber yards
- transport terminals
- warehouses
