Green Roof

Future buildings will feature 'residents only' green roofs, featuring gardens, shade structures and BBQ facilities for small group gatherings. These rooftop gardens offering panoramic views over Wollu Creek, Botany Bay and the city will be carefully planned with respect to the provision of rooftop services. Building 3 will feature a pool and associated change rooms facilities.

Private Podiums

Three podium 'Commons' are proposed for use by adjoining apartment residents. Each common will feature generous lawns, garden beds, tree plantings, shade structure, seating and BBQ facilities. Pool and associated change rooms and gym facilities will be provided along with allotment gardens enabling participating residents to grow food and herbs.
