

### 5. Avenue

The Interdistrict Connector and Local Distributors will be lined with a mix of native and exotic tree species that will, when mature, provide substantial shading and develop a character appropriate for these higher order streets. This will contribute to the overall legibility, character and place making of the neighbourhood.

### 6. Local Streets

Lined with native species suited for street planting that can provide shade and form a formal edge to the private domain. Local streets to have footpaths on both sides of the road and a managed nature strip.

### 7. Edge Streets

Provide a managed vegetated interface between development and open space, riparian corridors and grazing land.
