I don't see how destroying 60ha of bushland improves the environment when so much is being lost bit by bit by development. The land in question is an area of high conservation value according to a DEC report. It contains much significant fauner and flora. Also Crangan Bay is the last undeveloped bay in Lake Macquarie and should be left that way. This development potentially could destroy the seagrass beds in Crangan Bay.  
I declare that I have made no political donations or gifts.
