I am writing to object to the proposed residential development at Gwandalan. My family and I are regular visitors to the area and enjoy the lake for recreational purposes. I believe that the development will have a negative impact on the lake, particularly environmental.

Additional development around the lake will decrease water quality, impacting recreational fishing. The existing boat ramp facilities struggle to cope with the current demand and additional users of the lake will increase safety risks due to overcrowding.

There are limited jobs, schools, shops & medical facilities in the area & these would not be able to support additional development.

I am aware of other proposed developments in Gwandalan & Lake Macquarie & their combined effects would be devastating to the natural bushland & lake.

Regards,
