Mr Daniel Keary
Director - Major Project Assessments
Department of Planning
23 – 33 Bridge Street
SYDNEY NSW 2000

Dear Mr Keary,

Sydney CityGrid Project – Concept Plan Approval Condition 2.1

We write in relation to the above referenced condition. We understand that currently condition 2.1 of the Concept Approval is incorrect.

Condition 2.1 states *"The construction and operation of Stage 1 (including Stage 1A and Stage 2B) and associated infrastructure requires no further environmental assessment and is the subject of a separate instrument of approval"*.

Stage 2B should in fact be Stage 1B.

EnergyAustralia has no objections to the Department updating condition 2.1 to correct this anomaly.

Yours sincerely,

A handwritten signature in dark ink, reading 'Wilma Penrose', is written over a horizontal line.
