i find it completely unacceptable that this private school feels it's appropriate to demolish 85 trees and reduce the open space of north sydney so dramatically - especially considering the area is so heavily buit up. i would think that the community would be trying to hang on to as much green space in a business area as possible.

i am disgusted, but not surprised, that the state govt would sell off what little green space we have left near the city.

please stop this from happening!!

kind regards,

lainie arnold
