A public enquiry regarding this proposed development is imperative.

The intended removal of 85 trees and the loss of a large area of open space can be viewed as nothing short of environmental vandalism.

Surely our State Government can call a halt to a development on which our local Council can have no say.

This needs to be examined further and I ask that the new Government gives consideration to: loss of 85 mature trees; major loss of open space resulting from overdevelopment of this site; and a potential for major increase in traffic in what is already a traffic challenged area.
