Attention: Ms Jackie Waterhouse

Dear Jackie

Re: Modification of the Proposed Regional Road through Jacfin's Ropes Creek Precinct

This letter is to advise that I have reviewed the proposed realignment of the Regional Road the south western corner of this site. This was prepared by Brown Consultants to marry in with the continuation of this route across the water pipeline and through Lot A of the Goodman site on which a DHL transport facility is proposed.

I can confirm my view that the proposed realignment on the Jacfin site is satisfactory from a traffic operational perspective and would not have any material effect on the operation of the Ropes Creek Precinct road system as currently proposed.

Yours sincerely
