

The Department of Planning and Infrastructure
GPO Box 39
Sydney NSW 2001

July 2011

Objection to the Redevelopment of the Former Allied Mills Site - MP10_1055
2-32 Smith Street, Summer Hill NSW 2130

I object to the above Concept Plan application on the basis of the following (as indicated):

- ☒ **Traffic congestion** – lack of any credible plans to deal with the very substantial increase in traffic and congestion that this development will generate. It is estimated that this development and the proposed Lewisham Towers development will generate an extra 1000 cars/hour in peak hour (Independent study by Colston, Budd, Hunt & Kafes, May 2011 commissioned by Ashfield Council).
- ☒ **Scale and out of character with our village** – this is a gross over-development of the Mills site and the proposed heights of the tower blocks (10-13 storeys) is completely out of character with the local one and two-storey dwellings (many of which are heritage), that are characteristic of Summer Hill and adjoining villages.
- ☒ **Impact on local amenity** – the addition of over 800 new residents (330 units x 2.49 people/dwelling average in Ashfield) in this development simply cannot be accommodated by local schools, childcare and other amenities, many of which are already at capacity.
- ☒ **Limited greenspace** – This development has limited greenspace, a concern compounded by the fact that Ashfield is already the 2nd most densely populated municipality in NSW.
- ☒ **Lack of genuine community consultation** – despite 62 per cent of the Summer Hill community confirming in the developer's own survey that they wanted to be informed about this development, community consultation has been extremely limited and not at all genuine. The community's concerns are simply being ignored and overlooked.
- ☒ **Combined impact with Lewisham Towers** – nobody is considering the combined impact (increased traffic, scale and design, overcrowding and loss of living amenity and negative impact of existing local businesses) of this development and the adjacent Lewisham Towers development which is part of the same McGill Street precinct.
- ☒ **Retail impact on the Summer Hill village** – the excessive retail elements in this development will duplicate and squeeze out local small businesses in an area with already extensive retail provision.

It is estimated that this development and the proposed Lewisham Towers development will generate an extra 1000 cars/hour in peak hour (Independent study by Colston, Budd, Hunt & Kafes, May 2011 commissioned by Ashfield Council).
- ☒ **Scale and out of character with our village** – this is a gross over-development of the Mills site and the proposed heights of the tower blocks (10-13 storeys) is completely out of character with the local one and two-storey dwellings (many of which are heritage), that are characteristic of Summer Hill and adjoining villages.
- ☒ **Impact on local amenity** – the addition of over 800 new residents (330 units x 2.49 people/dwelling average in Ashfield) in this development simply cannot be accommodated by local schools, childcare and other amenities, many of which are already at capacity.
- ☒ **Limited greenspace** – This development has limited greenspace, a concern compounded by the fact that Ashfield is already the 2nd most densely populated municipality in NSW.
- ☒ **Lack of genuine community consultation** – despite 62 per cent of the Summer Hill community confirming in the developer's own survey that they wanted to be informed about this development, community consultation has been extremely limited and not at all genuine. The community's concerns are simply being ignored and overlooked.
- ☒ **Combined impact with Lewisham Towers** – nobody is considering the combined impact (increased traffic, scale and design, overcrowding and loss of living amenity and negative impact of existing local businesses) of this development and the adjacent Lewisham Towers development which is part of the same McGill Street precinct.
- ☒ **Retail impact on the Summer Hill village** – the excessive retail elements in this development will duplicate and squeeze out local small businesses in an area with already extensive retail provision.

- ☐ **Impact on local amenity** – the addition of over 800 new residents (330 units x 2.49 people/dwelling average in Ashfield) in this development simply cannot be accommodated by local schools, childcare and other amenities, many of which are already at capacity.
- ☐ **Limited greenspace** – This development has limited greenspace, a concern compounded by the fact that Ashfield is already the 2nd most densely populated municipality in NSW.
- ☐ **Lack of genuine community consultation** – despite 62 per cent of the Summer Hill community confirming in the developer's own survey that they wanted to be informed about this development, community consultation has been extremely limited and not at all genuine. The community's concerns are simply being ignored and overlooked.
- ☐ **Combined impact with Lewisham Towers** – nobody is considering the combined impact (increased traffic, scale and design, overcrowding and loss of living amenity and negative impact of existing local businesses) of this development and the adjacent Lewisham Towers development which is part of the same McGill Street precinct.
- ☐ **Retail impact on the Summer Hill village** – the excessive retail elements in this development will duplicate and squeeze out local small businesses in an area with already extensive retail provision.

Objection to the Redevelopment of the Former Allied Mills Site - MP10_1055
2-32 Smith Street, Summer Hill NSW 2130

I object to the above Concept Plan application on the basis of the following (as indicated):

- ☒ **Traffic congestion** – lack of any credible plans to deal with the very substantial increase in traffic and congestion that this development will generate. It is estimated that this development and the proposed Lewisham Towers development will generate an extra 1000 cars/hour in peak hour (Independent study by Colston, Budd, Hunt & Kafes, May 2011 commissioned by Ashfield Council).
- ☒ **Scale and out of character with our village** – this is a gross over-development of the Mills site and the proposed heights of the tower blocks (10-13 storeys) is completely out of character with the local one and two-storey dwellings (many of which are heritage), that are characteristic of Summer Hill and adjoining villages.
- ☒ **Impact on local amenity** – the addition of over 800 new residents (330 units x 2.49 people/dwelling average in Ashfield) in this development simply cannot be accommodated by local schools, childcare and other amenities, many of which are already at capacity.
- ☒ **Limited greenspace** – This development has limited greenspace, a concern compounded by the fact that Ashfield is already the 2nd most densely populated municipality in NSW.

June 2011

Objection to the Redevelopment of the Former Allied Mills Site - MP10_1055
2-32 Smith Street, Summer Hill NSW 2130

I object to the above Concept Plan application on the basis of the following (as indicated):

- ☐ **Traffic congestion** – lack of any credible plans to deal with the very substantial increase in traffic and congestion that this development will generate. It is estimated that this development and the proposed Lewisham Towers development will generate an extra 1000 cars/hour in peak hour (Independent study by Colston, Budd, Hunt & Kafes, May 2011 commissioned by Ashfield Council).
- ☐ **Scale and out of character with our village** – this is a gross over-development of the Mills site and the proposed heights of the tower blocks (10-13 storeys) is completely out of character with the local one and two-storey dwellings (many of which are heritage), that are characteristic of Summer Hill and adjoining villages.
- ☐ **Impact on local amenity** – the addition of over 800 new residents (330 units x 2.49 people/dwelling average in Ashfield) in this development simply cannot be accommodated by local schools, childcare and other amenities, many of which are already at capacity.
- ☐ **Limited green space** – This development has limited green space, a concern compounded by the fact that Ashfield is already the 2nd most densely populated municipality in NSW.
- ☐ **Lack of genuine community consultation** – despite 62 per cent of the Summer Hill community confirming in the developer's own survey that they wanted to be informed about this development, community consultation has been extremely limited and not at all genuine. The community's concerns are simply being ignored and overlooked.
- ☐ **Combined impact with Lewisham Towers** – nobody is considering the combined impact (increased traffic, scale and design, overcrowding and loss of living amenity and negative impact of existing local businesses) of this development and the adjacent Lewisham Towers development which is part of the same McGill Street precinct.
- ☐ **Retail impact on the Summer Hill village** – the excessive retail elements in this development will duplicate and squeeze out local small businesses in an area with already extensive retail provision.
