Dear Sir,

Re: Exhibition of Mixed Use Development - 110 - 114
Herring Road, Macquarie Park (MP10_0112 and MP10_0113).

As a long time resident of this area (40 years), I have watched the area grow from semi rural to truly urban. I realise this has been valuable progress and good for the area.

However the problem with the proposed redevelopment on the corner of Epping Highway and Herring Road could create problems - mainly TRAFFIC FLOW, the resulting congestion and increase in noise level on an already busy corner because of access to Macquarie University and Macquarie Centre.

I realise its proximity to the above facilities is favourable but I do believe the traffic will prove a major problem. Has traffic flow been evaluated?

As resident and rate payer in the area, do we need such a large redevelopment that will create a major inconvenience ?

With respect
Yours faithfully

J Fahey
