Hi Anthony,

the Department of Transport's comments have been incorporated in the RTA advice (reference 468DA066, 11/731, MM).

I am adding the two following points for consideration in the assessment process:

- In the light of the reduced provision of on-site parking, the DoT strongly supports the development of a Workplace Travel Plan (WTP) to encourage the use of public transport and walking and cycling particularly by employees living in the relevant catchments. Please note that guidance for how to prepare a workplace travel plan for future staff and a transport access guide for future customers exists and is available at http://www.pcal.nsw.gov.au/data/assets/pdf_file/0015/100527/Brochure_FINAL_23.08.10.pdf and at <http://www.rta.nsw.gov.au/usingroads/traveldemandmanagement/transportaccessguides/index.html> and
- including an additional commitment to provide a WTP coordinator to implement the Plan through providing direct assistance to staff. (The DoT would be pleased to provide further advice in this regard during preparation of the project EA).

Regards,

Eva Cermak
