Subject: Cronulla Leagues Club Upgrade

Sue Mackenzie

2 Gundawarra Street

Lilli Pilli NSW 2229

11 November 2011

I wish to lodge my support for the Cronulla Sharks Concept Plan that is currently on public exhibition.

As a local resident for 38 years, I am very excited about the benefits this development will bring to our Shire.

The prospect of new open spaces and new playground facilities for myself and my 2 children, together with the convenience of new retail, entertainment and dining facilities is a fantastic initiative for so many to enjoy.

The proposal will not only strengthen the beauty and diversity of our local area but attract more families and young people to the area creating a very attractive future for all.

Yours Sincerely

Mrs Sue Mackenzie

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

John sheehy

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

JESSICA WYATT

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Nathan Loveday

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Jennifer Byrom
